All Regional Directors/Medical Supdt.
Regional Office,
ESI Corporation,

Sir/Madam,

Of late, it came to the notice of the Hqrs. Office that agencies are being engaged to undertake the work of different examinations without verifying the fact whether these agencies are blacklisted by the organization or not, which is a matter of concern. Assigning such sensitive and confidential nature of work to blacklisted agencies may not only jeopardize the process of examination but may also tarnish the image of the organization.

Therefore, you are requested to review the position and submit by return FAX whether the advertisement brought out tender, the clause regarding blacklisting is strictly adhered to or not.
