- (xiv) “DP” means Delivery Period
- (xv) “BG” means Bank Guarantee
- (xvi) “ED” means Excise Duty
- (xvii) “CD” means Custom Duty
- (xviii) “VAT” means Value Added Tax
- (xix) “CENVAT” means Central Value Added Tax
- (xx) “CST” means Central Sales Tax
- (xxi) “RR” means Railway Receipt
- (xxii) “BL” means Bill of Lading
- (xxiii) “FOB” means Free on Board
- (xxiv) “FCA” means Free Carrier
- (xxv) “FOR” means Free On Rail
- (xxvi) “CIF” means Cost, Insurance and Freight
- (xxvii) “CIP (Destinations)” means Carriage and Insurance Paid up to named port of destination. Additionally the Insurance (local transportation and storage) would be extended and borne by the Supplier from ware house to the consignee site for a period including 3 months beyond date of delivery.
- (xxviii) “DDP” means Delivery Duty Paid named place of destination (consignee site)
- (xxix) “INCOTERMS” means International Commercial Terms as on the date of Tender Opening
- (xxx) ”ESIC” means Employee State Insurance Corporation.
- (xxxii) “DG” means Director General of ESIC under the administrative control of Ministry of Labour and Employment
- (xxxiii) “CMC” means Comprehensive Maintenance Contract (labour, spare and preventive maintenance)
- (xxxiiii) “RT” means Re-Tender.

2. Introduction

- 2.1 The Purchaser has issued these TE documents for purchase of goods and related services as mentioned in Section – VI – “List of Requirements”, which also indicates, *interalia*, the required quantity, delivery schedule, terms and place of delivery.
- 2.2 This section (Section II - “General Instructions to Tenderers”) provides the relevant information as well as instructions to assist the prospective tenderers in preparation and submission of tenders. It also includes the mode and procedure to be adopted by the purchaser for receipt and opening as well as scrutiny and evaluation of tenders and subsequent placement of contract.
- 2.3 The tenderers shall also read the Special Instructions to Tenderers (SIT) related to this purchase, as contained in Section III of these documents and follow the same accordingly. Whenever there is a conflict between the GIT and the SIT, the provisions contained in the SIT shall prevail over those in the GIT.
- 2.4 Before formulating the tender and submitting the same to the purchaser, the tenderer should read and examine all the terms, conditions, instructions, checklist etc. contained in the TE documents. Failure to provide and/or comply with the required information, instructions etc. incorporated in these TE documents may result in rejection of its tender.

3. Deleted**4. Language of Tender**

4.1 The tender submitted by the tenderer and all subsequent correspondence and documents relating to the tender exchanged between the tenderer and the purchaser, shall be written in the English language, unless otherwise specified in the Tender Enquiry. However, the language of any printed literature furnished by the tenderer in connection with its tender may be written in any other language provided the same is accompanied by a notarised English translation and, for purposes of interpretation of the tender, the English translation shall prevail.

4.2 The tender submitted by the tenderer and all subsequent correspondence and documents relating to the tender exchanged between the tenderer and the purchaser, may also be written in the Hindi language, provided that the same are accompanied by notarised English translation, in which case, for purpose of interpretation of the tender etc, the English translations shall prevail.

5. Eligible Tenderers

This invitation for tenders is open to all suppliers who fulfil the eligibility criteria specified in these documents.

6. Eligible Goods and Services

All goods and related services to be supplied under the contract shall have their origin in India or any other country with which India has not banned trade relations. The term “origin” used in this clause means the place where the goods are mined, grown, produced, or manufactured or from where the related services are arranged and supplied.

7. Tendering Expense

The tenderer shall bear all costs and expenditure incurred and/or to be incurred by it in connection with its tender including preparation, mailing and submission of its tender and for subsequent processing the same. The purchaser will, in no case be responsible or liable for any such cost, expenditure etc regardless of the conduct or outcome of the tendering process.

B. TENDER ENQUIRY DOCUMENTS**8. Content of Tender Enquiry Documents**

8.1 In addition to Section I – “Notice inviting Tender” (NIT), the TE documents include:

Section II	– General Instructions to Tenderers (GIT)
Section III	– Special Instructions to Tenderers (SIT)
Section IV	– General Conditions of Contract (GCC)
Section V	– Special Conditions of Contract (SCC)
Section VI	– List of Requirements
Section VII	– Technical Specifications
Section VIII	– Quality Control Requirements
Section IX	– Qualification Criteria
Section X	– Tender Form
Section XI	– Price Schedules
Section XII	– Questionnaire
Section XIII	– Deleted
Section XIV	– Manufacturer’s Authorisation Form
Section XV	– Bank Guarantee Form for Performance Security/CMC Security
Section XVI	– Contract Forms A & B
Section XVII	– Proforma of Consignee Receipt Certificate

Section XVIII – Proforma of Final Acceptance Certificate by the consignee
 Section XIX – Details of Shipping arrangement for Liner Cargoes in respect of
 C&F/CIF/Turnkey/F.O.R. Contracts for Import
 Section XX – Check List for the Tenderers
 Section XXI – Consignee List

8.2 The relevant details of the required goods and services, the terms, conditions and procedure for tendering, tender evaluation, placement of contract, the applicable contract terms and, also, the standard formats to be used for this purpose are incorporated in the above-mentioned documents. The interested tenderers are expected to examine all such details before submission of the tender.

9. Deleted

10. Clarification of TE documents

A tenderer requiring any clarification or elucidation on any issue of the TE documents may take up the same with the purchaser in writing. The purchaser will respond to such request provided the purchaser receives the same minimum 1 (one) hour prior to the scheduled time of pre-bid meeting. Clarification for the same will be published on the websites as mentioned in para 5 of NIT (Section I) within 4 days after the prebid meeting.

C. PREPARATION OF TENDERS

11. Documents Comprising the Tender

11.1 The **Two Tender System**, i.e. “Techno – Commercial Tender” and “Price Tender” prepared by the tenderer shall comprise the following:

A) Techno – Commercial Tender (Un priced Tender)

- i) Earnest money furnished in accordance with GIT clause 19.
- ii) Tender Form as per Section X.
- iii) Documentary evidence, as necessary in terms of clauses 5 and 17 establishing that the tenderer is eligible to submit the tender and, also, qualified to perform the contract if its tender is accepted.
- iv) Tenderer/Agent who quotes for goods manufactured by other manufacturer shall furnish Manufacturer’s Authorisation in the prescribed format as per Section - XIV.
- v) Power of Attorney/Authorisation in favour of signatory of TE documents.
- vi) Documents and relevant details to establish in accordance with GIT clause 18 that the goods and the allied services to be supplied by the tenderer conform to the requirement of the TE documents.
- vii) Performance Statement as per section IX along with relevant copies of purchase orders and end users’ satisfaction certificate.
- viii) Price Schedule(s) as per Section XII filled up with all the details including Qty., Make, Model, Contry of origin, etc. of the goods offered with prices blank (without indicating any prices).
- ix) Certificate of Incorporation of the bidder.
- x) Checklist as per Section XX.
- xi) Statement of deviations parameter wise from tendered technical specifications, if any.

B) Price Tender:

The information given at clause no. 11.1 A)- viii) above should be reproduced with the prices indicated.

N.B.

1. All pages of the Tender should be page numbered and indexed.
2. It is the responsibility of tenderer to go through the TE document to ensure furnishing all required documents in addition to above, if any.

- 11.2 The authorized signatory of the tenderer must sign the tender duly stamped at appropriate places and initial all the remaining pages of the tender.
- 11.3 A tender, which does not fulfil any of the above requirements and/or gives evasive information/reply against any such requirement, shall be liable to be ignored and rejected.
- 11.4 Tender sent by fax/telex/cable/electronically shall be ignored.

12. Tender currencies

- 12.1 The tenderer supplying indigenous goods or already imported goods shall quote only in Indian Rupees.
- 12.2 For imported goods if supplied directly from abroad, prices shall be quoted in any freely convertible currencies say USD, Euro, GBP or Yen. As regards price(s) for allied services, if any required with the goods, the same shall be quoted in Indian Rupees only if such services are to be performed /undertaken in India. Commission for Indian Agent, if any and if payable shall be indicated in the space provided for in the price schedule and will be payable in Indian Rupees only.
- 12.3 Tenders, where prices are quoted in any other way shall be treated as non-responsive and rejected.

13 Tender Prices

- 13.1 The Tenderer shall indicate on the Price Schedule provided under Section XI all the specified components of prices shown therein including the unit prices and total tender prices of the goods and services it proposes to supply against the requirement. All the columns shown in the price schedule should be filled up as required. If any column does not apply to a tenderer, it should be clarified as "NA" by the tenderer.
- 13.2 The tenderer has the option to submit its quotation for any one or more item (s) in the List of Requirements. However, separate sealed cover to be used for each item for price bid.
- 13.3 The quoted prices for goods offered from within India and that for goods offered from abroad are to be indicated separately in the applicable Price Schedules attached under Section XI.

The price quoted by the tenderer for indigenous goods shall not be higher than the lowest price charged for the goods of the same nature, class or description to an individual/ firm/ organisation or department of Govt. of India.

For imported goods, the price quoted shall not be higher than the lowest price charged by the tenderer for the goods of the same nature, class or description to a purchaser, domestic or foreign or to any organisation or department of Govt. of India.

If it is found at any stage that the goods as stated have been supplied at a lower price, then that price, with due allowance for elapsed time will be applicable to the present case and the difference in cost would be refunded by the supplier to the purchaser, if the contract has already been concluded.

- 13.4 While filling up the columns of the Price Schedule, the following aspects should be noted for compliance:

13.4.1 For domestic goods or goods of foreign origin located within India, the prices in the corresponding price schedule shall be entered separately in the following manner:

- a) the price of the goods, quoted ex-factory/ ex-showroom/ ex-warehouse/ off-the-shelf, as applicable, including all taxes and duties like sales tax, CST VAT, CENVAT, Custom Duty, Excise Duty etc. already paid or payable on the components and raw material used in the manufacture or assembly of the goods quoted ex-factory etc. or on the previously imported goods of foreign origin quoted ex-showroom etc;
- b) any sales or other taxes and any duties including excise duty, which will be payable on the finished goods in India if the contract is awarded;
- c) charges towards Packing & Forwarding, Inland Transportation, Insurance, Loading/Unloading and other local costs incidental to delivery of the goods to their final destination as specified in the List of Requirements and Price Schedule;
- d) the price of Incidental Services, as mentioned in List of Requirements and Price Schedule;
- e) the prices of Turnkey (if any), as mentioned in List of Requirements, Technical Specification and Price Schedule; and
- f) the price of CMC, as mentioned in List of Requirements, Technical Specification and Price Schedule.

13.4.2 For goods offered from abroad, the prices in the corresponding price schedule shall be entered separately in the following manner:

- a) the price of goods quoted FOB port of shipment, as indicated in the List of Requirements and Price Schedule;
- b) the amount of freight and insurance and price of goods quoted CIP port of entry in India as indicated in the List of Requirements and Price Schedule;
- c) the **price of goods quoted should be on DDP basis at consignee site in India** as indicated in the List of Requirements, Price Schedule and Consignee List;
- d) wherever applicable, the amount of custom duty with CDEC applicable on CIP value on the goods to be imported; ESIC will issue Customs Duty Exemption Certificate (CDEC) where applicable.
- e) the charges for Loading/Unloading, Inland transportation, Insurance and other local costs, Incidental cost to delivery of the goods from the port of entry in India to Consignee Site, as specified in the List of Requirements and Price Schedule;
- f) the charges for Incidental Services, as in the List of Requirements and Price Schedule;
- g) the prices of Turnkey (if any), as mentioned in List of Requirements, Technical Specification and Price Schedule; and
- h) the price of CMC, as mentioned in List of Requirements, Technical Specification and Price Schedule.

13.5 Additional information and instruction on Duties and Taxes:

13.5.1 If the Tenderer desires to ask for excise duty, sales tax/ VAT, Service Tax, Works Contract Tax etc. to be paid extra, the same must be specifically stated. In the absence of any such stipulation the price will be taken inclusive of such duties and taxes and no claim for the same will be entertained later.

13.5.2 Excise Duty:

- a) If reimbursement of excise duty is intended as extra over the quoted prices, the supplier must specifically say so also indicating the rate, quantum and nature of the duty applicable. In the absence of any such stipulation it will be presumed that the prices quoted are firm and final and no claim on account of excise duty will be entertained after the opening of tenders.

- b) If a Tenderer chooses to quote a price inclusive of excise duty and also desires to be reimbursed for variation, if any, in the excise duty during the time of supply, the tenderer must clearly mention the same and also indicate the rate and quantum of excise duty included in its price. Failure to indicate all such details in clear terms may result in rejection of that tender.
- c) Subject to sub clauses 13.5.2 (a) & (b) above, any change in excise duty upward/downward as a result of any statutory variation in excise duty taking place within contract terms shall be allowed to the extent of actual quantum of excise duty paid by the supplier. In case of downward revision in excise duty, the actual quantum of reduction of excise duty shall be reimbursed to the purchaser by the supplier. All such adjustments shall include all reliefs, exemptions, rebates, concession etc. if any obtained by the supplier.

13.5.3 Sales Tax:

If a tenderer asks for sales tax/ VAT, Service Tax and Works Contract Tax to be paid extra, the rate and nature of sales tax applicable should be shown separately. The sales tax / VAT, Service Tax and Works Contract Tax will be paid as per the rate at which it is liable to be assessed or has actually been assessed provided the transaction of sale is legally liable to sales tax / VAT, Service Tax and Works Contract Tax and is payable as per the terms of the contract. If any refund of Tax is received at a later date, the Supplier must return the amount forth-with to the purchaser.

13.5.4 Octroi Duty and Local Duties & Taxes:

Octroi duty, terminal tax and other levies of local bodies (like town body, municipal body etc.) if not exempted shall be reimbursed to the supplier on production of such proof of payment along with the final bill.

13.5.5 Customs Duty:

The tenderer shall quote the Customs duty wherever applicable, considering availability of CDEC. The applicable rates and amount of the Custom Duty and the corresponding Indian Customs Tariff number should be shown separately in the price schedule. In case of non-availability of CDEC, the supplier has to custom cleared the goods paying the applicable Custom Duty and any difference of duty from the applicable CDEC rate shall be reimbursed separately on production of such proof of payment alongwith the final bill.

- 13.6 For transportation of imported goods offered from abroad, relevant instructions as incorporated under GCC Clause 10 shall be followed.
- 13.7 For insurance of goods to be supplied, relevant instructions as provided under GCC Clause 11 shall be followed.
- 13.8 Unless otherwise specifically indicated in this TE document, the terms FCA, FOB, FAS, CIF, CIP, DDP etc. for imported goods offered from abroad, shall be governed by the rules & regulations prescribed in the current edition of INCOTERMS, published by the International Chamber of Commerce, Paris
- 13.9 The need for indication of all such price components by the tenderers, as required in this clause (viz., GIT clause 13) is for the purpose of comparison of the tenders by the purchaser and will no way restrict the purchaser's right to award the contract on the selected tenderer on any of the terms offered.

14. Indian Agent

- 14.1 If a foreign tenderer has engaged an agent in India in connection with its tender, the foreign tenderer, in addition to indicating Indian agent's commission, if any, in a manner described under GIT sub clause 12.2 above, shall also furnish the following information:

- a) The complete name and address of the Indian Agent and its permanent income tax account number as allotted by the Indian Income Tax authority.
- b) The details of the services to be rendered by the agent for the subject requirement.
- c) Details of Service outlets in India, nearest to the consignee(s), to render services during Warranty and CMC period.

15. Firm Price

- 15.1 Unless otherwise specified in the SIT, prices quoted by the tenderer shall remain firm and fixed during the currency of the contract and not subject to variation on any account.
- 15.2 However, as regards taxes and duties, if any, chargeable on the goods and payable, the conditions stipulated in GIT clause 13 will apply.

16. Deleted

17 Documents Establishing Tenderer's Eligibility and Qualifications

- 17.1 Pursuant to GIT clause 11, the tenderer shall furnish, as part of its tender, relevant details and documents establishing its eligibility to quote and its qualifications to perform the contract if its tender is accepted.
- 17.2 The documentary evidence needed to establish the tenderer's qualifications shall fulfil the following requirements:
 - a) in case the tenderer offers to supply goods, which are manufactured by some other firm, the tenderer has been duly authorised by the goods manufacturer to quote for and supply the goods to the purchaser. The tenderer shall submit the manufacturer's authorization letter to this effect as per the standard form provided under **Section XIV** in this document.
 - b) the tenderer has the required financial, technical and production capability necessary to perform the contract and, further, it meets the qualification criteria incorporated in the Section IX in these documents.
 - c) in case the tenderer is not doing business in India, it is duly represented by an agent stationed in India fully equipped and able to carry out the required contractual functions and duties of the supplier including after sale service, maintenance & repair etc. of the goods in question, stocking of spare parts and fast moving components and other obligations, if any, specified in the conditions of contract and/or technical specifications.
 - d) in case the tenderer is an Indian agent/authorized representative quoting on behalf of a foreign manufacturer for the **restricted item**, the Indian agent/authorized representative is already enlisted under the Compulsory Enlistment Scheme of Ministry of Finance, Govt. of India, operated through Directorate General of Supplies & Disposals (DGS&D), New Delhi.

18. Documents establishing Good's Conformity to TE document.

- 18.1 The tenderer shall provide in its tender the required as well as the relevant documents like technical data, literature, drawings etc. to establish that the goods and services offered in the tender fully conform to the goods and services specified by the purchaser in the TE documents. For this purpose the tenderer shall also provide a clause-by-clause commentary on the technical specifications and other technical details incorporated by the purchaser in the TE documents to establish technical responsiveness of the goods and services offered in its tender.
- 18.2 In case there is any variation and/or deviation between the goods & services prescribed by the purchaser and that offered by the tenderer, the tenderer shall list out the same in a chart form without ambiguity and provide the same along with its tender.

18.3 If a tenderer furnishes wrong and/or misleading data, statement(s) etc. about technical acceptability of the goods and services offered by it, its tender will be liable to be ignored and rejected in addition to other remedies available to the purchaser in this regard.

19. Earnest Money Deposit (EMD)

19.1 Pursuant to GIT clauses 8.1 and 11.1(A) the tenderer shall furnish along with its tender, earnest money for amount as shown in the List of Requirements. The earnest money is required to protect the purchaser against the risk of the tenderer's unwarranted conduct as amplified under sub-clause 19.7 below.

19.2 Deleted

19.3 The earnest money shall be denominated in Indian Rupees or equivalent currencies as per GIT clause 12.2. **The earnest money shall not be accepted in any other form except the following:**

- i. Account Payee Demand Draft or
- ii. Banker's cheque

19.4 The demand draft or banker's cheque shall be drawn on any commercial bank in India or country of the tenderer, in favour of the "HLL Lifecare Limited" payable at New Delhi.

19.5 Deleted.

19.6 Unsuccessful tenderers' earnest money will be returned to them without any interest, after expiry of the tender validity period, but not later than thirty days after conclusion of the resultant contract. Successful tenderer's earnest money will be returned without any interest, after receipt of performance security from that tenderer.

19.7 Earnest Money is required to protect the purchaser against the risk of the Tenderer's conduct, which would warrant the forfeiture of the EMD. Earnest money of a tenderer will be forfeited, if the tenderer withdraws or amends its tender or impairs or derogates from the tender in any respect within the period of validity of its tender or if it comes to notice that the information/documents furnished in its tender is incorrect, false, misleading or forged without prejudice to other rights of the purchaser. The successful tenderer's earnest money will be forfeited without prejudice to other rights of Purchaser if it fails to furnish the required performance security within the specified period.

20. Tender Validity

20.1 If not mentioned otherwise in the SIT, the tenders shall remain valid for acceptance for a period of **120 days (One hundred and twenty days)** after the date of opening of techno-commercial tenders prescribed in the TE document. Any tender valid for a shorter period shall be treated as unresponsive and rejected.

20.2 In exceptional cases, the tenderers may be requested by the purchaser to extend the validity of their tenders up to a specified period. Such request(s) and responses thereto shall be conveyed by surface mail or by fax/ email followed by surface mail. The tenderers, who agree to extend the tender validity, are to extend the same without any change or modification of their original tender and they are also to extend the validity period of the EMD accordingly. A tenderer, however, may not agree to extend its tender validity without forfeiting its EMD.

20.3 In case the day up to which the tenders are to remain valid falls on/ subsequently declared a holiday or closed day for the purchaser, the tender validity shall automatically be extended up to the next working day.

21. Signing and Sealing of Tender

21.1 The tenderers shall submit their tenders as per the instructions contained in GIT Clause 11.

- 21.2 Unless otherwise mentioned in the SIT, a tenderer shall submit two copies of its tender marking them as “Original” and “Duplicate”. Duplicate tenders may contain all pages including Technical Literature/Catalogues as in Original tenders.
- 21.3 The original and duplicate copies of the tender shall either be typed or written in indelible ink and the same shall be signed by the tenderer or by a person(s) who has been duly authorized to bind the tenderer to the contract. The letter of authorization shall be by a written power of attorney, which shall also be furnished along with the tender.
- 21.4 All the copies of the tender shall be duly signed at the appropriate places as indicated in the TE documents and all other pages of the tender including printed literature, if any shall be initialled by the same person(s) signing the tender. The tender shall not contain any erasure or overwriting, except as necessary to correct any error made by the tenderer and, if there is any such correction; the same shall be initialled by the person(s) signing the tender.
- 21.5 The tenderer is to seal the original and copy of the tender in separate envelopes, duly marking the same as “Original”, “Duplicate” and so on and writing the address of the purchaser and the tender reference number on the envelopes. The sentence “NOT TO BE OPENED” before _____ (The tenderer is to put the date & time of tender opening) are to be written on these envelopes. The inner envelopes are then to be put in a bigger outer envelope along with envelope containing EMD, which will also be duly sealed, marked etc. as above. If the outer envelope is not sealed and marked properly as above, the purchaser will not assume any responsibility for its misplacement, premature opening, late opening etc.
- 21.6 TE document seeks quotation following **two Tender System**, in two parts. First part will be known as **‘Techno - Commercial Tender’**, and the second part **‘Price Tender’** as specified in clause 11 of GIT. Tenderer shall seal **‘Techno - Commercial Tender (along with envelope containing EMD)’** and **‘Price Tender’** separately and covers will be suitably super scribed. Both these sealed covers shall be put in a bigger cover and sealed and procedure prescribed in Paras 21.1 to 21.5 followed.

D. SUBMISSION OF TENDERS

22. Submission of Tenders

- 22.1 Unless otherwise specified, the tenderers are to deposit the tenders in the tender box kept for this purpose at **HLL Lifecare Limited, Procurement and Consultancy Division, B-14A, Sector - 62, Noida -201307, Uttar Pradesh**. In case of bulky tender, which can not be put into tender box, the same shall be submitted by the tenderer by hand to **Head (P&CD)** or his nominee, **HLL Lifecare Limited, Procurement and Consultancy Division, B-14A, Sector -62, Noida - 201307, Uttar Pradesh**. The officer receiving the tender will give the tenderer an official receipt duly signed with date and time.
- 22.2 The tenderers must ensure that they deposit their tenders not later than the closing time and date specified for submission of tenders. It is the responsibility of the tenderer to ensure that their Tenders whether sent by post or by courier or by person, are dropped in the Tender Box by the specified clearing date and time. In the event of the specified date for submission of tender falls on / is subsequently declared a holiday or closed day for the purchaser, the tenders will be received up to the appointed time on the next working day.

23. Late Tender

- 23.1 A tender, which is received after the specified date and time for receipt of tenders will be treated as “late” tender and will be ignored.

24. Alteration and Withdrawal of Tender

- 24.1 The tenderer, after submitting its tender, is permitted to alter / modify its tender so long as such alterations / modifications are received duly signed, sealed and marked like the original tender,

within the deadline for submission of tenders. Alterations / modifications to tenders received after the prescribed deadline will not be considered.

- 24.2 No tender should be withdrawn after the deadline for submission of tender and before expiry of the tender validity period. If a tenderer withdraws the tender during this period, it will result in forfeiture of the earnest money furnished by the tenderer in its tender.

E. TENDER OPENING

25. Opening of Tenders

- 25.1 The purchaser will open the tenders at the specified date and time and at the specified place as indicated in the NIT.

In case the specified date of tender opening falls on / is subsequently declared a holiday or closed day for the purchaser, the tenders will be opened at the appointed time and place on the next working day.

- 25.2 **Authorized representatives of the tenderers**, who have submitted tenders on time **may attend the tender opening** provided they bring with them **letters of authority from the corresponding tenderers**.

The tender opening official(s) will prepare a list of the representatives attending the tender opening. The list will contain the representatives' names & signatures and corresponding tenderers' names and addresses.

- 25.3 **Two-Tender system as mentioned in para 21.6 above will be as follows.** The **Techno-Commercial Tenders** are to be opened in the first instance, at the prescribed time and date as indicated in NIT. These Tenders shall be scrutinized and evaluated by the competent committee/ authority with reference to parameters prescribed in the TE document. During the Techno - Commercial Tender opening, the tender opening official(s) will read the salient features of the tenders like brief description of the goods offered, delivery period, Earnest Money Deposit and any other special features of the tenders, as deemed fit by the tender opening official(s). Thereafter, in the second stage, the Price Tenders of only the Techno-Commercially acceptable offers shall be opened at a latter date which will be notified to such tenderers. The prices, special discount if any of the goods offered etc., as deemed fit by tender opening official(s) will be read out.

F. SCRUTINY AND EVALUATION OF TENDERS

26. Basic Principle

- 26.1 Tenders will be evaluated on the basis of the terms & conditions already incorporated in the TE document, based on which tenders have been received and the terms, conditions etc. mentioned by the tenderers in their tenders. No new condition will be brought in while scrutinizing and evaluating the tenders.

27. Preliminary Scrutiny of Tenders

- 27.1 The Purchaser will examine the Tenders to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed stamped and whether the Tenders are generally in order.
- 27.2 Deleted.
- 27.3 Deleted

- 27.4 The tenders will be scrutinized to determine whether they are complete and meet the essential and important requirements, conditions etc. as prescribed in the TE document. The tenders, which do not meet the basic requirements, are liable to be treated as non – responsive and will be summarily ignored.
- 27.5 The following are some of the important aspects, for which a tender shall be declared non-responsive and will be summarily ignored;
- (i) Tender form as per Section X (signed and stamped) not enclosed
 - (ii) Tender is unsigned.
 - (iii) Tender validity is shorter than the required period.
 - (iv) Required EMD have not been provided.
 - (v) Tenderer has quoted for goods manufactured by other manufacturer(s) without the required Manufacturer's Authorisation as per Format given in Section XIV.
 - (vi) Tenderer has not agreed to give the required performance security.
 - (vii) Goods offered are not meeting the tender enquiry specification.
 - (viii) Tenderer has not agreed to other essential condition(s) specially incorporated in the tender enquiry like terms of payment, liquidated damages clause, warranty clause, DDP clause, Delivery period clause, dispute resolution mechanism applicable law.
 - (ix) Poor/ unsatisfactory past performance.
 - (x) Tenderers who stand deregistered/banned/blacklisted by any Govt. Authorities.
 - (xi) Tenderer is not eligible as per GIT Clauses 5.1 & 17.1.
 - (xii) Tenderer has not quoted for the entire quantity as specified in the List of Requirements for the quoted item (s).

28. Deleted

29 Discrepancies in Prices

- 29.1 If, in the price structure quoted by a tenderer, there is discrepancy between the unit price and the total price (which is obtained by multiplying the unit price by the quantity), the unit price shall prevail and the total price corrected accordingly, unless the purchaser feels that the tenderer has made a mistake in placing the decimal point in the unit price, in which case the total price as quoted shall prevail over the unit price and the unit price corrected accordingly.
- 29.2 If there is an error in a total price, which has been worked out through addition and/or subtraction of subtotals, the subtotals shall prevail and the total corrected; and
- 29.3 If there is a discrepancy between the amount expressed in words and figures, the amount in words shall prevail, subject to sub clause 29.1 and 29.2 above.

30. Discrepancy between original and copies of Tender

In case any discrepancy is observed between the text etc. of the original copy and that in the other copies of the same tender set, the text etc. of the original copy shall prevail.

31. Qualification Criteria

Tenders of the tenderers, who do not meet the required Qualification Criteria prescribed in Section IX, will be treated as non-responsive and will not be considered further.

32. Conversion of tender currencies to Indian Rupees

In case the TE document permits the tenderers to quote their prices in different currencies, all such quoted prices of the responsive tenderers will be converted to a single currency viz., Indian Rupees for the purpose of equitable comparison and evaluation, as per the exchange rates established by the Reserve Bank of India for similar transactions, **as on the date of 'Price Tender' opening.**

33. Deleted

34. Comparison of Tenders

34.1 Unless mentioned otherwise in Section – III – Special Instructions to Tenderers and Section – VI – List of Requirements, the comparison of the responsive tenders shall be carried out on **Delivery Duty Paid (DDP)** consignee site basis. The quoted turnkey prices and CMC prices will also be added for comparison/ranking purpose for evaluation.

35. Additional Factors and Parameters for Evaluation and Ranking of Responsive Tenders

35.1 Further to GIT Clause 34 above, the purchaser's evaluation of a tender will include and take into account the following:

- i) In the case of goods manufactured in India or goods of foreign origin already located in India, sales tax & other similar taxes and excise duty & other similar duties, Customs Duties, Service Tax, Works Contract Tax etc which will be contractually payable (to the tenderer), on the goods if a contract is awarded on the tenderer; and
- ii) in the case of goods of foreign origin offered from abroad, customs duty and other similar import duties/taxes, which will be contractually payable (to the tenderer) on the goods if the contract is awarded on the tenderer.

35.2 The purchaser's evaluation of tender will also take into account the additional factors, if any, incorporated in SIT in the manner and to the extent indicated therein.

35.3 Deleted

36. Tenderer's capability to perform the contract

36.1 The purchaser, through the above process of tender scrutiny and tender evaluation will determine to its satisfaction whether the tenderer, whose tender has been determined as the lowest evaluated responsive tender is eligible, qualified and capable in all respects to perform the contract satisfactorily. If, there is more than one item in the List of Requirements, then, such determination will be made separately for each item.

36.2 The above-mentioned determination will, interalia, take into account the tenderer's financial, technical and production capabilities for satisfying all the requirements of the purchaser as incorporated in the TE document. Such determination will be based upon scrutiny and examination of all relevant data and details submitted by the tenderer in its tender as well as such other allied information as deemed appropriate by the purchaser.

37. Contacting the Purchaser

37.1 From the time of submission of tender to the time of awarding the contract, if a tenderer needs to contact the purchaser for any reason relating to this tender enquiry and / or its tender, it should do so only in writing.

37.2 In case a tenderer attempts to influence the purchaser in the purchaser's decision on scrutiny, comparison & evaluation of tenders and awarding the contract, the tender of the tenderer shall be liable for rejection in addition to appropriate administrative actions being taken against that tenderer, as deemed fit by the purchaser.

G. AWARD OF CONTRACT**38. Purchaser's Right to accept any tender and to reject any or all tenders**

The purchaser reserves the right to accept in part or in full any tender or reject any or more tender(s) without assigning any reason or to cancel the tendering process and reject all tenders at

any time prior to award of contract, without incurring any liability, whatsoever to the affected tenderer or tenderers.

39. Award Criteria

Subject to GIT clause 38 above, the contract will be awarded to the lowest evaluated responsive tenderer decided by the purchaser in terms of GIT Clause 36.

40. Variation of Quantities at the Time of Award/ Currency of Contract

40.1 At the time of awarding the contract, the purchaser reserves the right to increase or decrease by up to twenty five (25) per cent, the quantity of goods and services mentioned in the schedule (s) in the "List of Requirements" without any change in the unit price and other terms & conditions quoted by the tenderer.

40.2 If the quantity has not been increased at the time of the awarding the contract, the purchaser reserves the right to increase by up to twenty five (25) per cent, the quantity of goods and services mentioned in the contract without any change in the unit price and other terms & conditions mentioned in the contract, during the currency of the contract or within one-year from the date of Notification of Award.

41. Notification of Award

41.1 Before expiry of the tender validity period, the purchaser will notify the successful tenderer(s) in writing, by registered / speed post or by fax/ telex/cable (to be confirmed by registered / speed post) that its tender for goods & services, which have been selected by the purchaser, has been accepted, also briefly indicating therein the essential details like description, specification and quantity of the goods & services and corresponding prices accepted. The successful tenderer must furnish to the purchaser the required performance security within twenty-one (21) days from the date of dispatch of this notification, failing which the EMD will be forfeited and the award will be cancelled. Relevant details about the performance security have been provided under GCC Clause 5 under Section IV.

41.2 The Notification of Award shall constitute the conclusion of the Contract.

42. Issue of Contract

42.1 Promptly after notification of award, the Purchaser/Consignee will mail the contract form (as per Section XVI) duly completed and signed, in duplicate, to the successful tenderer by registered / speed post.

42.2 Within twenty one days from the date of the contract, the successful tenderer shall return the original copy of the contract, duly signed and dated, to the Purchaser by registered / speed post.

42.3 The Purchaser reserves the right to issue the Notification of Award consignee wise.

43. Non-receipt of Performance Security and Contract by the Purchaser/Consignee

Failure of the successful tenderer in providing performance security and / or returning contract copy duly signed in terms of GIT clauses 41 and 42 above shall make the tenderer liable for forfeiture of its EMD and, also, for further actions by the Purchaser/Consignee against it as per the clause 24 of GCC – Termination of default.

44. Return of E M D

The earnest money of the successful tenderer and the unsuccessful tenderers will be returned to them without any interest, whatsoever, in terms of GIT Clause 19.6.

45. Publication of Tender Result

The name and address of the successful tenderer(s) receiving the contract(s) will be mentioned in the notice board/bulletin/web site of the purchaser.

46. Corrupt or Fraudulent Practices

It is required by all concerned to observe the highest standard of ethics during the procurement and execution of such contracts. In pursuance of this policy, the Purchaser: -

- (a) defines, for the purposes of this provision, the terms set forth below as follows:
 - (i) “corrupt practice” means the offering, giving, receiving or soliciting of any thing of value to influence the action of a public official in the procurement process or in contract execution; and
 - (ii) “fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Purchaser, and includes collusive practice among Tenderers (prior to or after Tender submission) designed to establish Tender prices at artificial non-competitive levels and to deprive the Purchaser of the benefits of free and open competition;
- (b) will reject a proposal for award if it determines that the Tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;
- (c) will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded a contract by the purchaser if it at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing the contract.

SECTION - III
SPECIAL INSTRUCTIONS TO TENDERERS
(SIT)

The following Special Instructions to Tenderers will apply for this purchase. These special instructions will modify/substitute/supplement the corresponding General Instructions to Tenderers (GIT) incorporated in Section II. The corresponding GIT clause numbers have also been indicated in the text below:

In case of any conflict between the provision in the GIT and that in the SIT, the provision contained in the SIT shall prevail.

GENERAL CONDITIONS OF CONTRACT (GCC)

1. Application

The General Conditions of Contract incorporated in this section shall be applicable for this purchase to the extent the same are not superseded by the Special Conditions of Contract prescribed under Section V, List of requirements under Section VI and Technical Specification under Section VII of this document.

2. Use of contract documents and information

2.1 The supplier shall not, without the purchaser's prior written consent, disclose the contract or any provision thereof including any specification, drawing, sample or any information furnished by or on behalf of the purchaser in connection therewith, to any person other than the person(s) employed by the supplier in the performance of the contract emanating from this TE document. Further, any such disclosure to any such employed person shall be made in confidence and only so far as necessary for the purposes of such performance for this contract.

2.2 Further, the supplier shall not, without the purchaser's prior written consent, make use of any document or information mentioned in GCC sub-clause 2.1 above except for the sole purpose of performing this contract.

2.3 Except the contract issued to the supplier, each and every other document mentioned in GCC sub-clause 2.1 above shall remain the property of the purchaser and, if advised by the purchaser, all copies of all such documents shall be returned to the purchaser on completion of the supplier's performance and obligations under this contract.

3. Patent Rights

The supplier shall, at all times, indemnify and keep indemnified the purchaser, free of cost, against all claims which may arise in respect of goods & services to be provided by the supplier under the contract for infringement of any intellectual property rights or any other right protected by patent, registration of designs or trademarks. In the event of any such claim in respect of alleged breach of patent, registered designs, trade marks etc. being made against the purchaser, the purchaser shall notify the supplier of the same and the supplier shall, at his own expenses take care of the same for settlement without any liability to the purchaser.

4. Country of Origin

4.1 All goods and services to be supplied and provided for the contract shall have the origin in India or in the countries with which the Government of India has trade relations.

4.2 The word "origin" incorporated in this clause means the place from where the goods are mined, cultivated, grown, manufactured, produced or processed or from where the services are arranged.

4.3 The country of origin may be specified in the Price Schedule

5. Performance Security

5.1 Within twenty-one (21) days from date of the issue of notification of award by the Purchaser/Consignee, the supplier, shall furnish performance security to the Purchaser/Consignee for an amount equal to ten percent (10%) of the total value of the contract, **valid up to sixty (60) days after the date of completion of all contractual obligations by the supplier, including the warranty obligations.**

5.2 The Performance security shall be denominated in Indian Rupees or in the currency of the contract as detailed below:

- a) It shall be in any one of the forms namely Account Payee Demand Draft drawn from any Scheduled bank in India or Bank Guarantee issued by a Scheduled bank in India, in the

prescribed form as provided in section XV of this document in favour of the Purchaser/Consignee.

- b) In the case of Bank Guarantee furnished from banks outside India (i.e. foreign Banks), it should be authenticated and countersigned by any nationalised bank in India by way of back-to-back counter guarantee.

- 5.3 In the event of any failure /default of the supplier with or without any quantifiable loss to the government including furnishing of consignee wise Bank Guarantee for CMC security as per Proforma in Section XV, the amount of the performance security is liable to be forfeited. The Administration Department may do the needful to cover any failure/default of the supplier with or without any quantifiable loss to the Government.
- 5.4 In the event of any amendment issued to the contract, the supplier shall, within twenty-one (21) days of issue of the amendment, furnish the corresponding amendment to the Performance Security (as necessary), rendering the same valid in all respects in terms of the contract, as amended.
- 5.5 The supplier shall enter into Comprehensive Maintenance Contract as per the 'Contract Form - B' in Section XVI with respective consignees, 3 (three) months prior to the completion of Warranty Period. The CMC will commence from the date of expiry of the Warranty Period.
- 5.6 Subject to GCC sub – clause 5.3 above, the Purchaser/Consignee will release the Performance Security without any interest to the supplier on completion of the supplier's all contractual obligations including the warranty obligations & after receipt of Consignee wise bank guarantee for CMC security in favour of Head of the Hospital/ Institute/ Medical College of the consignee as per the format in Section XV.

6. Technical Specifications and Standards

- 6.1 The Goods & Services to be provided by the supplier under this contract shall conform to the technical specifications and quality control parameters mentioned in 'Technical Specification' and 'Quality Control Requirements' under Sections VII and VIII of this document.

7. Packing and Marking

- 7.1 The packing for the goods to be provided by the supplier should be strong and durable enough to withstand, without limitation, the entire journey during transit including transshipment (if any), rough handling, open storage etc. without any damage, deterioration etc. As and if necessary, the size, weights and volumes of the packing cases shall also take into consideration, the remoteness of the final destination of the goods and availability or otherwise of transport and handling facilities at all points during transit up to final destination as per the contract.
- 7.2 The quality of packing, the manner of marking within & outside the packages and provision of accompanying documentation shall strictly comply with the requirements as provided in Technical Specifications and Quality Control Requirements under Sections VII and VIII and in SCC under Section V. In case the packing requirements are amended due to issue of any amendment to the contract, the same shall also be taken care of by the supplier accordingly.
- 7.3 Packing instructions:

Unless otherwise mentioned in the Technical Specification and Quality Control Requirements under Sections VII and VIII and in SCC under Section V, the supplier shall make separate packages for each consignee (in case there is more than one consignee mentioned in the contract) and mark each package on three sides with the following with indelible paint of proper quality:

- a. contract number and date
- b. brief description of goods including quantity
- c. packing list reference number
- d. country of origin of goods

- e. consignee's name and full address and
- f. supplier's name and address

8. Inspection, Testing and Quality Control

- 8.1 The purchaser and/or its nominated representative(s) will, without any extra cost to the purchaser, inspect and/or test the ordered goods and the related services to confirm their conformity to the contract specifications and other quality control details incorporated in the contract. The purchaser shall inform the supplier in advance, in writing, the purchaser's programme for such inspection and, also the identity of the officials to be deputed for this purpose. The cost towards the transportation, boarding & lodging will be borne by the purchaser and/or its nominated representative(s).
- 8.2 The Technical Specification and Quality Control Requirements incorporated in the contract shall specify what inspections and tests are to be carried out and, also, where and how they are to be conducted. If such inspections and tests are conducted in the premises of the supplier or its subcontractor(s), all reasonable facilities and assistance, including access to relevant drawings, design details and production data, shall be furnished by the supplier to the purchaser's inspector at no charge to the purchaser.
- 8.3 If during such inspections and tests the contracted goods fail to conform to the required specifications and standards, the purchaser's inspector may reject them and the supplier shall either replace the rejected goods or make all alterations necessary to meet the specifications and standards, as required, free of cost to the purchaser and resubmit the same to the purchaser's inspector for conducting the inspections and tests again.
- 8.4 In case the contract stipulates pre-despatch inspection of the ordered goods at supplier's premises, the supplier shall put up the goods for such inspection to the purchaser's inspector well ahead of the contractual delivery period, so that the purchaser's inspector is able to complete the inspection within the contractual delivery period.
- 8.5 If the supplier tenders the goods to the purchaser's inspector for inspection at the last moment without providing reasonable time to the inspector for completing the inspection within the contractual delivery period, the inspector may carry out the inspection and complete the formality beyond the contractual delivery period at the risk and expense of the supplier. The fact that the goods have been inspected after the contractual delivery period will not have the effect of keeping the contract alive and this will be without any prejudice to the legal rights and remedies available to the purchaser under the terms & conditions of the contract.
- 8.6 The purchaser's/consignee's contractual right to inspect, test and, if necessary, reject the goods after the goods' arrival at the final destination shall have no bearing of the fact that the goods have previously been inspected and cleared by purchaser's inspector during pre-despatch inspection mentioned above.
- 8.7 Goods accepted by the purchaser/consignee and/or its inspector at initial inspection and in final inspection in terms of the contract shall in no way dilute purchaser's/consignee's right to reject the same later, if found deficient in terms of the warranty clause of the contract, as incorporated under GCC Clause 15.
- 8.8 Principal/ Foreign supplier shall also have the equipment inspected by recognised/ reputed agency like SGS, Lloyd or equivalent (acceptable to the purchaser) prior to despatch at the supplier's cost and furnish necessary certificate from the said agency in support of their claim.

9. Terms of Delivery

Goods shall be delivered by the supplier in accordance with the terms of delivery specified in the contract.

10. Transportation of Goods

10.1 Instructions for transportation of imported goods offered from abroad:

The supplier shall not arrange part-shipments and/or transshipment without the express/prior written consent of the purchaser. The supplier is required under the contract to deliver the goods under DDP at consignee site; the shipment shall be made by Indian flag vessel or by vessels belonging to the conference lines in which India is a member country through India's forwarding agents/coordinators. In case the forwarding agent/coordinators are unable to provide timely adequate space in Indian flag vessel or by vessels belonging to the conference lines, the supplier shall arrange shipment through any available vessel to adhere to the delivery schedule given in the contract.

In case of airlifting of imported goods offered from abroad, the same will be done only through the National Carrier i.e. Air India wherever applicable. In case the National Carrier is not available, any other airlines available for early delivery may be arranged.

Goods will be custom cleared by the supplier/ Indian agent and transported to the consignee's site as per the contract terms.

Instructions for transportation of domestic goods including goods already imported by the supplier under its own arrangement:

In case no instruction is provided in this regard in the SCC, the supplier will arrange transportation of the ordered goods as per its own procedure.

The goods shall be custom cleared by the Supplier/ Indian Agent and transported to the consignee's site as per contract terms. The supplier shall be responsible for safe and timely delivery of ordered goods under his own arrangement.

11. Insurance:

Unless otherwise instructed in the SCC, the supplier shall make arrangements for insuring the goods against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the following manner:

- i) in case of supply of domestic goods on Consignee site basis, the supplier shall be responsible till the entire stores contracted for arrival in good condition at destination. The transit risk in this respect shall be covered by the Supplier by getting the stores duly insured. The insurance cover shall be obtained by the Supplier and should be valid till 3 months after the receipt of goods by the Consignee.
- ii) in case of supply of the imported goods on DDP Basis, the supplier shall arrange and pay for marine/ air insurance making the consignee as beneficiary. The additional extended Insurance (local transportation and storage) would also be borne by the Supplier from the port of entry to the consignee site for a period including 3 months beyond date of delivery.

12. Spare parts

12.1 If specified in the List of Requirements and in the resultant contract, the supplier shall supply/provide any or all of the following materials, information etc. pertaining to spare parts manufactured and/or supplied by the supplier:

- a) The spare parts as selected by the Purchaser/Consignee to be purchased from the supplier, subject to the condition that such purchase of the spare parts shall not relieve the supplier of any contractual obligation including warranty obligations; and

- b) In case the production of the spare parts is discontinued:
- i) Sufficient advance notice to the Purchaser/Consignee before such discontinuation to provide adequate time to the purchaser to purchase the required spare parts etc., and
 - ii) Immediately following such discontinuation, providing the Purchaser/Consignee, free of cost, the designs, drawings, layouts and specifications of the spare parts, as and if requested by the Purchaser/Consignee.

12.2 Supplier shall carry sufficient inventories to assure ex-stock supply of consumable spares for the goods so that the same are supplied to the Purchaser/Consignee promptly on receipt of order from the Purchaser/Consignee.

13. Incidental services

Subject to the stipulation, if any, in the SCC (Section – V), List of Requirements (Section – VI) and the Technical Specification (Section – VII), the supplier shall be required to perform the following services.

- i) Installation & commissioning, Supervision and Demonstration of the goods
- ii) Providing required jigs and tools for assembly, minor civil works required for the completion of the installation.
- iii) Training of Consignee's Doctors, Staff, operators etc. for operating and maintaining the goods
- iv) Supplying required number of operation & maintenance manual for the goods

14. Distribution of Dispatch Documents for Clearance/Receipt of Goods

The supplier shall send all the relevant despatch documents well in time to the Purchaser/Consignee

Unless otherwise specified in the SCC, the usual documents involved and the drill to be followed in general for this purpose are as follows.

A) For Domestic Goods, including goods already imported by the supplier under its own arrangement

Within 24 hours of despatch, the supplier shall notify the purchaser, consignee, and others concerned if mentioned in the contract, the complete details of despatch and also supply the following documents to them by registered post / speed post (or as instructed in the contract):

- (i) Four copies of supplier's invoice showing contract number, goods description, quantity, unit price and total amount;
- (ii) Two copies of packing list identifying contents of each package;
- (iii) Inspection certificate issued by the nominated Inspection agency, if any.
- (iv) Certificate of origin;
- (v) Insurance Certificate as per GCC Clause 11.
- (vi) Manufacturers/Supplier's warranty certificate & In-house inspection certificate.

B) For goods imported from abroad

Within 24 hours of despatch, the supplier shall notify the purchaser, consignee, and others concerned if mentioned in the contract, the complete details of despatch and also supply the

following documents to them by airmail/ registered post / speed post (or as instructed in the contract).

- (i) Four copies of supplier's invoice showing contract number, goods description, quantity, unit price and total amount;
- (ii) Original and four copies of the negotiable clean, on-board Bill of Lading/Airway bill, marked freight pre paid and four copies of non-negotiable Bill of Lading/Airway bill;
- (iii) Four Copies of packing list identifying contents of each package;
- (iv) Insurance Certificate as per GCC Clause 11.
- (v) Manufacturer's/Supplier's warranty certificate;
- (vi) Inspection Certificate for the despatched equipments issued by recognized/ reputed agency like SGS, Lloyd or equivalent (acceptable to the purchaser) prior to despatch
- (vii) Manufacturer's own factory inspection report;
- (viii) Certificate of origin
- (ix) Port of Loading;
- (x) Port of Discharge and
- (xi) Expected date of arrival.

15. Warranty

15.1 The supplier warrants comprehensively that the goods supplied under the contract is new, unused and incorporate all recent improvements in design and materials unless prescribed otherwise by the purchaser in the contract. The supplier further warrants that the goods supplied under the contract shall have no defect arising from design, materials or workmanship or from any act or omission of the supplier that may develop under normal use of the supplied goods under the conditions prevailing in India.

15.2 This **warranty shall remain valid for 2(Two) years** in general, after the goods or any portion thereof as the case may be, have been delivered to the final destination and installed and commissioned at the final destination and accepted by the Purchaser/Consignee in terms of the contract, **unless specified otherwise in the SCC.**

- a. No conditional warranty like mishandling, manufacturing defects etc. will be acceptable.
- b. Warranty as well as Comprehensive Maintenance contract will be inclusive of all accessories and Turnkey work and it will also cover the following items:-
 - i. X-ray and CT tubes and high-tension cables.
 - ii. Helium replacement
 - iii. Any kind of motor
 - iv. Plastic & Glass parts
 - v. All kinds of sensors including oxygen sensors
 - vi. All kinds of coils, probes and transducers including ECG cable, BP transducers, SpO2 Probes, Ultrasound and Color Doppler Transducers/probes, BP Cuffs, Defibrillator internal paddles, chart recorders, ventilator reusable patient circuits, servo humidifier with chamber, electrodes and probes for blood gas analyser, MRI coils.
 - vii. All kinds of flat panel sensors and cassettes for Digital Radiography & Computer Radiography systems and patients handling trolleys, etc.
 - viii. Printers and imagers including laser and thermal printers with all parts.
 - ix. UPS including the replacement of Batteries.
 - x. Air-conditioners
- c. Replacement and repair will be under taken for the defective goods.
- d. Proper marking has to be made for all spares for identification like printing of installation and repair dates.

- 15.3 In case of any claim arising out of this warranty, the Purchaser/Consignee shall promptly notify the same in writing to the supplier. The period of the warranty will be as per G.C.C clause number 15.2 above irrespective of any other period mentioned elsewhere in the bidding documents.
- 15.4 Upon receipt of such notice, the supplier shall, within 8 hours on a 24(hrs) X 7 (days) X 365 (days) basis respond to take action to repair or replace the defective goods or parts thereof, free of cost, at the ultimate destination. The supplier shall take over the replaced parts/goods after providing their replacements and no claim, whatsoever shall lie on the purchaser for such replaced parts/goods thereafter. The penalty clause for non-rectification will be applicable as per tender conditions
- 15.5 In the event of any rectification of a defect or replacement of any defective goods during the warranty period, the **warranty for the rectified/replaced goods shall be extended to a further period as mentioned under clause 15.2** from the date such rectified / replaced goods starts functioning to the satisfaction of the purchaser.
- 15.6 If the supplier, having been notified, fails to respond to take action to repair or replace the defect(s) within 8 hours on a 24(hrs) X 7 (days) X 365 (days) basis, the purchaser may proceed to take such remedial action(s) as deemed fit by the purchaser, at the risk and expense of the supplier and without prejudice to other contractual rights and remedies, which the purchaser may have against the supplier.
- 15.7 During Warranty period, the supplier is required to visit at each consignee's site at least once in 6 months commencing from the date of the installation for preventive maintenance of the goods
- 15.8 The Purchaser/Consignee reserve the rights to enter into **Annual Comprehensive Maintenance Contract** between Consignee and the Supplier for the period as mentioned in General Points for Technical Specifications, **Section VII (para-4)**, after the completion of warranty period.
- 15.9 The supplier along with its Indian Agent and the CMC provider shall ensure continued supply of the spare parts for the machines and equipments supplied by them to the purchaser for **10 years** from the date of installation and handing over.
- 15.10 The Supplier along with its Indian Agent and the CMC Provider shall always accord most favoured client status to the Purchaser vis-à-vis its other Clients/Purchasers of its equipments/machines/goods etc. and shall always give the most competitive price for its machines/equipments supplied to the Purchaser/Consignee.

16. Assignment

- 16.1 The Supplier shall not assign, either in whole or in part, its contractual duties, responsibilities and obligations to perform the contract, except with the Purchaser's prior written permission.

17. Sub Contracts

- 17.1 The Supplier shall notify the Purchaser in writing of all sub contracts awarded under the contract if not already specified in its tender. Such notification, in its original tender or later, shall not relieve the Supplier from any of its liability or obligation under the terms and conditions of the contract.
- 17.2 Sub contract shall be only for bought out items and sub-assemblies.
- 17.3 Sub contracts shall also comply with the provisions of GCC Clause 4 ("Country of Origin").

18. Modification of contract

- 18.1 If necessary, the purchaser may, by a written order given to the supplier at any time during the currency of the contract, amend the contract by making alterations and modifications within the general scope of contract in any one or more of the following:
- a) Specifications, drawings, designs etc. where goods to be supplied under the contract are to be specially manufactured for the purchaser,
 - b) Mode of packing,
 - c) Incidental services to be provided by the supplier

- d) Mode of despatch,
- e) Place of delivery, and
- f) Any other area(s) of the contract, as felt necessary by the purchaser depending on the merits of the case.

18.2 In the event of any such modification/alteration causing increase or decrease in the cost of goods and services to be supplied and provided, or in the time required by the supplier to perform any obligation under the contract, an equitable adjustment shall be made in the contract price and/or contract delivery schedule, as the case may be, and the contract amended accordingly. If the supplier doesn't agree to the adjustment made by the Purchaser/Consignee, the supplier shall convey its views to the Purchaser/Consignee within twenty-one days from the date of the supplier's receipt of the Purchaser's/Consignee's amendment / modification of the contract.

19. Prices

19.1 Prices to be charged by the supplier for supply of goods and provision of services in terms of the contract shall not vary from the corresponding prices quoted by the supplier in its tender and incorporated in the contract except for any price adjustment authorised in the SCC.

20. Taxes and Duties

20.1 Supplier shall be entirely responsible for all taxes, duties, fees, levies etc. incurred until delivery of the contracted goods to the purchaser.

20.2 Further instruction, if any, shall be as provided in the SCC.

21. Terms and Mode of Payment

21.1 Payment Terms

Payment shall be made subject to recoveries, if any, by way of liquidated damages or any other charges as per terms & conditions of contract in the following manner.

A) Payment for Domestic Goods Or Foreign Origin Located Within India.

Payment shall be made in Indian Rupees as specified in the contract in the following manner:

a) On delivery:

- (i) 90 % payment of the contract price shall be paid within 24 hours on receipt of goods in good condition and upon the submission of the following documents complete in all respects. Bills shall be returned un-paid in case of any discrepancy. Delay in payment on account of above shall rest with the supplier.
- (ii) Four copies of supplier's invoice showing contract number, goods description, quantity, unit price and total amount;
- (iii) Consignee Receipt Certificate as per Section XVII in original issued by the authorized representative of the consignee;
- (iv) Two copies of packing list identifying contents of each package;
- (v) Inspection certificate issued by the nominated Inspection agency, if any;
- (vi) Insurance Certificate as per GCC Clause 11;
- (vii) Certificate of origin.

b) On Acceptance:

Balance 10 % payment would be made against 'Final Acceptance Certificate' as per Section XVIII of goods to be issued by the consignees subject to recoveries, if any, either on account of non-rectification of defects/deficiencies not attended by the Supplier or otherwise.

B) Payment for Imported Goods:

Payment for foreign currency portion shall be made in the currency as specified in the contract in the following manner:

a) On delivery:

Ninety (90) % of the net CIP price (CIP price less Indian Agency commission) of the goods shipped shall be paid through irrevocable, non-transferable Letter of Credit (LC) opened in favour of the supplier in a bank in his country and upon submission of documents specified hereunder:

- (i) Four copies of supplier's invoice showing contract number, goods description, quantity, unit price and total amount;
- (ii) Original and four copies of the negotiable clean, on-board Bill of Lading/ Airway bill , marked freight pre paid and four copies of non-negotiable Bill of Lading/Airway bill;
- (iii) Four Copies of packing list identifying contents of each package;
- (iv) Insurance Certificate as per GCC Clause 11 and documents also to be submitted for payment of LC confirming that dispatch documents has already been sent within 24 hours to all concerned as per the contract;
- (v) Manufacturer's/Supplier's warranty certificate;
- (vi) Manufacturer's own factory inspection report and
- (vii) Certificate of origin by the chamber of commerce of the concerned country;
- (viii) Inspection Certificate for the despatched equipments issued by recognized/ reputed agency like SGS, Lloyd or equivalent (acceptable to the purchaser) prior to despatch.
- (ix) Consignee Receipt Certificate as per Section XVII in original issued by the authorized representative of the consignee

b) On Acceptance:

Balance payment of 10 % of net CIP price of goods would be made against 'Final Acceptance Certificate' as per Section XVIII to be issued by the consignees through irrevocable, non-transferable Letter of Credit (LC) opened in favour of the Foreign Principal in a bank in his country, subject to recoveries, if any.

- c) Payment of custom duty amount with Custom Duty Exemption Certificate (CDEC), if applicable, customs clearance and handling charges, loading/ unloading, inland transportation, incidental costs till consignee site & incidental services (including installation & commissioning, supervision, demonstration and training) will be paid in Indian Rupees to the Indian agent at actual not exceeding the quoted rates after 100 % payment to the foreign principal.**

d) Payment of Indian Agency Commission:

Indian Agency commission will be paid to the manufacturer's agent in the local currency for an amount in Indian rupees indicated in the relevant Price Schedule (as per prevailing rate of exchange ruling on the date of Contract) and shall not be subject to further escalation / exchange variation. Payment shall be made after 100% payment to the Foreign Principal.

C) Payment of Turnkey, if any:

Turnkey payment will be made to the manufacturer's agent in Indian rupees indicated in the relevant Price Schedule (as per prevailing rate of exchange ruling on the date of Contract) and shall not be subject to further escalation / exchange variation. Payment shall be made to the Indian Agent after 100 % payment to the Foreign Principal.

D) Payment for Annual Comprehensive Maintenance Contract (CMC) Charges:

The consignee will enter into CMC with the supplier at the rates as stipulated in the contract. The payment of CMC will be made on six monthly basis after satisfactory completion of said period, duly certified by the consignee on receipt of bank guarantee for an amount equivalent to 2.5 % of the cost of the equipment as per contract in the prescribed format given in Section XV valid till 2 months after expiry of entire CMC period.

- 21.2 The supplier shall not claim any interest on payments under the contract.
- 21.3 Where there is a statutory requirement for tax deduction at source, such deduction towards income tax and other tax as applicable will be made from the bills payable to the Supplier at rates as notified from time to time.
- 21.4 Irrevocable & non-transferable LC shall be opened by ESIC/ Purchaser. However, if the supplier requests specifically to open confirmed LC, the extra charges would be borne by the supplier. If LC is required to be extended and/or amended for reasons not attributable to the purchaser/consignee, the charges thereof shall be borne by the supplier.
- 21.5 The payment shall be made in the currency / currencies authorised in the contract.
- 21.6 The supplier shall send its claim for payment in writing, when contractually due, along with relevant documents etc., duly signed with date, to the purchaser.
- 21.7 While claiming payment, the supplier is also to certify in the bill that the payment being claimed is strictly in terms of the contract and all the obligations on the part of the supplier for claiming that payment has been fulfilled as required under the contract.
- 21.8 While claiming reimbursement of duties, taxes etc. (like sales tax, excise duty, custom duty) from the Purchaser/Consignee, as and if permitted under the contract, the supplier shall also certify that, in case it gets any refund out of such taxes and duties from the concerned authorities at a later date, it (the supplier) shall refund to the Purchaser/Consignee forthwith.
- 21.9 In case where the supplier is not in a position to submit its bill for the balance payment for want of receipted copies of Inspection Note from the consignee and the consignee has not complained about the non-receipt, shortage, or defects in the supplies made, balance amount will be paid by the paying authority without consignee's receipt certificate after three months from the date of the preceding part payment for the goods in question, subject to the following conditions:
 - (a) The supplier will make good any defect or deficiency that the consignee (s) may report within six months from the date of despatch of goods.
 - (b) Delay in supplies, if any, has been regularized.
 - (c) The contract price where it is subject to variation has been finalized.
 - (d) The supplier furnishes the following undertakings:

"I/We, _____ certify that I/We have not received back the Inspection Note duly receipted by the consignee or any communication from the purchaser or the consignee about non-receipt, shortage or defects in the goods supplied. I/We _____ agree to make good any defect or deficiency that the consignee may report within three months from the date of receipt of this balance payment.

22. Delay in the supplier's performance

- 22.1 The supplier shall deliver the goods and perform the services under the contract within the time schedule specified by the Purchaser/Consignee in the List of Requirements and as incorporated in the contract.
- 22.2 Subject to the provision under GCC clause 26, any unexcused delay by the supplier in maintaining its contractual obligations towards delivery of goods and performance of services shall render the supplier liable to any or all of the following sanctions:

- (i) imposition of liquidated damages,
 - (ii) forfeiture of its performance security and
 - (iii) termination of the contract for default.
- 22.3 If at any time during the currency of the contract, the supplier encounters conditions hindering timely delivery of the goods and performance of services, the supplier shall promptly inform the Purchaser/Consignee in writing about the same and its likely duration and make a request to the Purchaser/Consignee for extension of the delivery schedule accordingly. On receiving the supplier's communication, the Purchaser/Consignee shall examine the situation as soon as possible and, at its discretion, may agree to extend the delivery schedule, with or without liquidated damages for completion of supplier's contractual obligations by issuing an amendment to the contract.
- 22.4 When the period of delivery is extended due to unexcused delay by the supplier, the amendment letter extending the delivery period shall, inter alia contain the following conditions:
- (a) The Purchaser/Consignee shall recover from the supplier, under the provisions of the clause 23 of the General Conditions of Contract, liquidated damages on the goods and services, which the Supplier has failed to deliver within the delivery period stipulated in the contract.
 - (b) That no increase in price on account of any ground, whatsoever, including any stipulation in the contract for increase in price on any other ground and, also including statutory increase in or fresh imposition of customs duty, excise duty, sales tax/ VAT, Service Tax and Works Contract Tax or on account of any other tax or duty which may be levied in respect of the goods and services specified in the contract, which takes place after the date of delivery stipulated in the contract shall be admissible on such of the said goods and services as are delivered and performed after the date of the delivery stipulated in the contract.
 - (c) But nevertheless, the Purchaser/Consignee shall be entitled to the benefit of any decrease in price on account of reduction in or remission of customs duty, excise duty, sales tax/ VAT, Service Tax and Works Contract Tax or any other duty or tax or levy or on account of any other grounds, which takes place after the expiry of the date of delivery stipulated in the contract.
- 22.5 The supplier shall not dispatch the goods after expiry of the delivery period. The supplier is required to apply to the Purchaser/Consignee for extension of delivery period and obtain the same before despatch. In case the supplier dispatches the goods without obtaining an extension, it would be doing so at its own risk and no claim for payment for such supply and / or any other expense related to such supply shall lie against the purchaser.

23. Liquidated damages

- 23.1 Subject to GCC clause 26, if the supplier fails to deliver any or all of the goods or fails to perform the services within the time frame(s) incorporated in the contract, the Purchaser/Consignee shall, without prejudice to other rights and remedies available to the Purchaser/Consignee under the contract, deduct from the contract price, as liquidated damages, a sum equivalent to 0.5% per week of delay or part thereof on delayed supply of goods and/or services until actual delivery or performance subject to a maximum of 10% of the contract price. Once the maximum is reached Purchaser/Consignee may consider termination of the contract as per GCC 24.

During the above-mentioned delayed period of supply and / or performance, the conditions incorporated under GCC sub-clause 22.4 above shall also apply.

24. Termination for default

- 24.1 The Purchaser/Consignee, without prejudice to any other contractual rights and remedies available to it (the Purchaser/Consignee), may, by written notice of default sent to the supplier, terminate

the contract in whole or in part, if the supplier fails to deliver any or all of the goods or fails to perform any other contractual obligation(s) within the time period specified in the contract, or within any extension thereof granted by the Purchaser/Consignee pursuant to GCC sub-clauses 22.3 and 22.4.

- 24.2 In the event of the Purchaser/Consignee terminates the contract in whole or in part, pursuant to GCC sub-clause 24.1 above, the Purchaser/Consignee may procure goods and/or services similar to those cancelled, with such terms and conditions and in such manner as it deems fit and the supplier shall be liable to the Purchaser/Consignee for the extra expenditure, if any, incurred by the Purchaser/Consignee for arranging such procurement.
- 24.3 Unless otherwise instructed by the Purchaser/Consignee, the supplier shall continue to perform the contract to the extent not terminated.

25. Termination for insolvency

- 25.1 If the supplier becomes bankrupt or otherwise insolvent, the purchaser reserves the right to terminate the contract at any time, by serving written notice to the supplier without any compensation, whatsoever, to the supplier, subject to further condition that such termination will not prejudice or affect the rights and remedies which have accrued and / or will accrue thereafter to the Purchaser/Consignee.

26. Force Majeure

- 26.1 Notwithstanding the provisions contained in GCC clauses 22, 23 and 24, the supplier shall not be liable for imposition of any such sanction so long the delay and/or failure of the supplier in fulfilling its obligations under the contract is the result of an event of Force Majeure.
- 26.2 For purposes of this clause, Force Majeure means an event beyond the control of the supplier and not involving the supplier's fault or negligence and which is not foreseeable and not brought about at the instance of, the party claiming to be affected by such event and which has caused the non – performance or delay in performance. Such events may include, but are not restricted to, acts of the Purchaser/Consignee either in its sovereign or contractual capacity, wars or revolutions, hostility, acts of public enemy, civil commotion, sabotage, fires, floods, explosions, epidemics, quarantine restrictions, strikes excluding by its employees, lockouts excluding by its management, and freight embargoes.
- 26.3 If a Force Majeure situation arises, the supplier shall promptly notify the Purchaser/Consignee in writing of such conditions and the cause thereof within twenty-one days of occurrence of such event. Unless otherwise directed by the Purchaser/Consignee in writing, the supplier shall continue to perform its obligations under the contract as far as reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.
- 26.4 If the performance in whole or in part or any obligation under this contract is prevented or delayed by any reason of Force Majeure for a period exceeding sixty days, either party may at its option terminate the contract without any financial repercussion on either side.
- 26.5 In case due to a Force Majeure event the Purchaser/Consignee is unable to fulfil its contractual commitment and responsibility, the Purchaser/Consignee will notify the supplier accordingly and subsequent actions taken on similar lines described in above sub-paragraphs.

27. Termination for convenience

- 27.1 The Purchaser/Consignee reserves the right to terminate the contract, in whole or in part for its (Purchaser's/Consignee 's) convenience, by serving written notice on the supplier at any time during the currency of the contract. The notice shall specify that the termination is for the convenience of the Purchaser/Consignee. The notice shall also indicate interalia, the extent to which the supplier's performance under the contract is terminated, and the date with effect from which such termination will become effective.

- 27.2 The goods and services that are complete and ready in terms of the contract for delivery and performance within thirty days after the supplier's receipt of the notice of termination shall be accepted by the Purchaser/Consignee following the contract terms, conditions and prices. For the remaining goods and services, the Purchaser/Consignee may decide:
- a) To get any portion of the balance completed and delivered at the contract terms, conditions and prices; and / or
 - b) To cancel the remaining portion of the goods and services and compensate the supplier by paying an agreed amount for the cost incurred by the supplier towards the remaining portion of the goods and services.

28. Governing language

- 28.1 The contract shall be written in English language following the provision as contained in GIT clause 4. All correspondence and other documents pertaining to the contract, which the parties exchange, shall also be written accordingly in that language.

29. Notices

- 29.1 Notice, if any, relating to the contract given by one party to the other, shall be sent in writing or by cable or telex or facsimile and confirmed in writing. The procedure will also provide the sender of the notice, the proof of receipt of the notice by the receiver. The addresses of the parties for exchanging such notices will be the addresses as incorporated in the contract.
- 29.2 The effective date of a notice shall be either the date when delivered to the recipient or the effective date specifically mentioned in the notice, whichever is later.

30. Resolution of disputes

- 30.1 If dispute or difference of any kind shall arise between the Purchaser/Consignee and the supplier in connection with or relating to the contract, the parties shall make every effort to resolve the same amicably by mutual consultations. The jurisdiction for the settlement of disputes will be at New Delhi, India.
- 30.2 If the parties fail to resolve their dispute or difference by such mutual consultation within twenty-one days of its occurrence, then, unless otherwise provided in the SCC, either the Purchaser/Consignee or the supplier may give notice to the other party of its intention to commence arbitration, as hereinafter provided the applicable arbitration procedure will be as per the Arbitration and Conciliation Act, 1996 of India. In the case of a dispute or difference arising between the Purchaser/Consignee and a domestic Supplier relating to any matter arising out of or connected with the contract, such dispute or difference shall be referred to the sole arbitration of an officer, appointed to be the arbitrator by the Director General of ESIC. The award of the arbitrator shall be final and binding on the parties to the contract subject to the provision that the Arbitrator shall give reasoned award in case the value of claim in reference exceeds Rupees One Lac (Rs. 1,00,000/-)
- 30.3 Venue of Arbitration: The venue of arbitration shall be New Delhi, India.

31. Applicable Law

The contract shall be governed by and interpreted in accordance with the laws of India for the time being in force.

32. General/ Miscellaneous Clauses

- 32.1 Nothing contained in this Contract shall be constructed as establishing or creating between the parties, i.e. the Supplier/its Indian Agent/CMC Provider on the one side and the Purchaser on the other side, a relationship of master and servant or principal and agent.
- 32.2 Any failure on the part of any Party to exercise right or power under this Contract shall not operate as waiver thereof.

-
- 32.3 The Supplier shall notify the Purchaser/Consignee of any material change would impact on performance of its obligations under this Contract.
- 32.4 Each member/constituent of the Supplier/its Indian Agent/CMC Provider, in case of consortium shall be **jointly and severally liable** to and responsible for all obligations towards the Purchaser/Consignee for performance of contract/services including that of its Associates/Sub Contractors under the Contract.
- 32.5 The Supplier/its Indian Agent/CMC Provider shall at all times, indemnify and keep indemnified the Purchaser against all claims/damages etc. for any infringement of any Intellectual Property Rights (IPR) while providing its services under CMC or the Contract.
- 32.6 The Supplier/its Agent/CMC Provider shall, at all times, indemnify and keep indemnified the Purchaser/Consignee against any claims in respect of any damages or compensation payable in consequences of any accident or injury sustained or suffered by its employees or agents or by any other third party resulting from or by any action, omission or operation conducted by or on behalf of the supplier/its associate/affiliate etc.
- 32.7 All claims regarding indemnity shall survive the termination or expiry of the contract

SECTION – V**SPECIAL CONDITIONS OF CONTRACT (SCC)**

The following Special Conditions of Contract (SCC) will apply for this purchase. The corresponding clauses of General Conditions of Contract (GCC) relating to the SCC stipulations have also been incorporated below.

These Special Conditions will modify/substitute/supplement the corresponding (GCC) clauses. Whenever there is any conflict between the provision in the GCC and that in the SCC, the provision contained in the SCC shall prevail.

SECTION - VI

LIST OF REQUIREMENTS

Part I:

SI No	Short Description of Items	Total Qty.
1	Emergency Resuscitation Kit	8
2	Multipara monitor (6 Nos.) with central station (1 No.)	6 (1)
3	Multipara monitor	16
4	Bio-safety Cabinet	2
5	LAMINAR FLOW- VERTICAL	1
6	Holter Recorders & Analisers	1
7	Blood Bank Refrigerator	1
8	Deep Freezer - 86 Deg	1
9	Platelet Incubator & Agitator	1
10	Automated Plasma Thawing Equipment	1
11	Automated Component Preparation Machine.	1
12	Cell Separator	1
13	Quality Mixer	1
14	O T Table C Arm Compatible	2
15	O T Table for Minor OT	1
16	Electrical Suction Machine	10
17	Automated Ext Defibrillator	10
18	Blood Gas Analyzers	3
19	Three Channel ECG Machine	6
20	X Ray Machine 500mA Digital	1
21	Cytospin	1
22	Trinacular Research Microscope	1
23	Micro Pipettes	5
24	Cryostat	1
25	Cell Counter (Fully automated 5 part differential analyser)	1
26	Elisa Reader with Washer	2
27	Urine Analyzer	1
28	Coagulation Analyzer	1
29	Centrifuge 24-36 Tubes	3
30	BACTEC System	1
31	QBC Blood parasite detection system	1
32	Automatic Tissue Embedding Centre	1
33	Phototherapy Unit	3
34	Electrophoresis Workstation	1
35	Fully Automated Semen Analyser	1

Part II: Required Delivery Schedule:**a) For Indigenous goods or for imported goods if supplied from India:**

Within **60 days** from date of Notification of Award to delivery at consignee site. The date of delivery will be the date of delivery at consignee site (Tenderers may quote earliest delivery period).

b) For Imported goods directly from abroad:

Within **90 days** from date of opening of L/C. The date of delivery will be the date of delivery at consignee site (Tenderers may quote earliest delivery period).

Part III: Scope of Incidental Services:

Installation & Commissioning, Supervision, Demonstration, Trial run and Training etc. as specified in GCC Clause 13. Installation & Commissioning shall be completed within 15 days of handing over the site of installation, complete in all respect by the consignee. The date of handing over of the site has to be intimated by the supplier to the purchaser. The delay on the part of the supplier to install and commission the equipment will attract the provisions as contained in the liquidated damage clause.

Part IV:

Turnkey (if any) as per details in Technical Specification. The tenderer shall also specify the time schedule for completion of Turnkey work.

Part V:

Annual Comprehensive Maintenance Contract (CMC) as per details in General Technical Specifications para 4.

Part VI:**Required Terms of Delivery and Destination.****a) For Indigenous goods or for imported goods if supplied from India:**

Delivery required at Consignee Site.

Insurance (local transportation and storage) would be borne by the Supplier from warehouse to the consignee site for a period including 3 months beyond date of delivery

b) For Imported goods directly from abroad:

The foreign tenderers are required to quote their rates on DDP at consignee's site basis giving break up of the price as per the Proforma prescribed in the Price Schedule.

Custom clearance, handling, unloading & loading and transportation to the consignee's site shall be the responsibility of the supplier/ Indian agent.

Insurance (local transportation and storage) would be extended and borne by the Supplier from ware house to the consignee site for a period including 3 months beyond date of delivery.

c) Destination/Consignee details are given in Section XXI

Part VII:**Inspection:****a) For Indigenous goods or for imported goods if supplied from India:**

At consignee site by the respective In-charge of the Hospital or his authorised representative.

b) For Imported goods directly from abroad:

Pre-despatch inspection at manufacturer's premises as per GCC clause 8.8 and inspection after arrival in India at consignee site by the respective In-charge of the Hospital or his authorised representative.

Section – VII

Technical Specifications

Item No. 1

Emergency Resuscitation Kit	
1. To have Retromolar Intubation fiberscope for unexpected difficult airways.	
a. Tip Distal Bending 40°.	
b. To be movable eyepiece	
c. To have a light source connection	
d. With length 40-42cms and dia 5-6 cms.	
e. ET tube holder should be provided	
f. Should take min. 5.5 size of ET tube	
2. Portable LED light source should be provided	
i. with illumination not less than 50000 Lux	
ii. should run on two 3v photo batteries	
iii. burning life should be more than 100 minutes	
iv. ergonomically designed and can be connected to both the fibrescopes	
v. life of LED should be close to 50000 hrs	
3. One Laryngoscope with rechargeable battery pack and blade with fibreoptic mechanism should be provided to be used on both adult and pediatric patients with charger.	
4. Other accessories like, magill forceps should be provided.	
5. Should have Emergency Cricothyroidotomy for pediatric and adult	
i. disposable blades	
ii. dialator	
6. Should have Combitube size 37Fr.	
i. with complete kit	
7. Should have Intubating Laryngeal Mask Airways with Following Components:	
a. ILMA Sizes 3 & 4.	
b. ILMA Tubes ID 7mm & 7.5mm.	
c. Tube Stabilizing rod	
d. Cuff deflator	
8. Should have Laryngeal Mask Airways	
i. sizes 1,2 and 4	
9. Handy and strong brief case/bag should be provided to keep all the instruments safe.	
10. Set of disposable percutaneous tracheotomy kit for adult and pediatric.	
11. Should have standard AMBU bag for pediatric and adult.	
12. Mechanical suction pump with suction catheter and stomach tubes.	
13. Should have Aluminum Oxygen reservoir 2 Liter with oxygen tube and catheter.	
14. Oxygen pressure reducer, regulable 0-15 liter with coupler for respirator.	
15. Ventilating bag	
16. Lubricant	
17. Blood pressure meter, boso K-II	
18. Stethoscope	
19. Rescue blanket gold/silver	
20. Infusion system.	

Item No. 2	
Multipara Monitor with Central Monitoring Station	
Multipara Monitor:	
Patient monitor system should be of modular type and capable of monitoring adult, pediatric & neonatal patients.	
Monitor should have 17" independent flat panel display.	
Touch screen user interface.	
Module rack / housing should be independent and shall be able to be placed near to the patient.	
Should be capable of 8 traces display.	
Monitor must be capable of simultaneously monitoring the following parameters which should be present as standard: ECG, NIBP, SpO2, invasive pressures (2), temperatures (2)	
Should be compatible with Capnography, Cardiac output, 4 channel direct EEG, and BIS and prices to be offered as optional for each module separately.	
ECG should have capability for 3, 5 and / or 10 lead monitoring and should have built in arrhythmia monitoring on all leads.	
Inbuilt ST segment analysis and arrhythmia detection for all the leads should be possible.	
Haemodynamic and drug dose calculations should be available.	
Arrhythmia should be grouped based on classifications – and should show no of arrhythmias occurred.	
Respiration should be available with Cardio Vascular Artifact filter.	
ICP monitoring should be possible.	
Alarm parameter should flash red in the presence of high priority alarms (e.g. ventricular fibrillation and asystole) and flash yellow in the presence of medium or low priority alarms (e.g. noisy signal, etc.)	
24 hours trend data should be displayed.	
All monitors including central station should have similar user interface for easy usage among all clinicians.	
Monitor shall provide the capability to interact with alarms at remote bedsides.	
Monitor shall provide the capability to receive and display real-time waveforms, trended data and alarm status from other bedside or telemetry units on the patient monitoring network.	
Monitor shall provide the capability enter patient information at the bedside or central monitor.	
On-screen keyboard for entering this data is preferable. Should have USB ports to connect mouse, key board, bar code scanner.	
Alarm limit status (ON/OFF) must be indicated on-screen for each parameter and actual parameter alarm settings must be displayed on-screen when alarms are on.	
Position of the displayed waveforms must be user configurable.	
Waveform color changing should be user configurable.	
Monitor shall permit the optional ability to receive and display information from other patient devices such as ventilators, infusion pumps and other standalone devices.	
All modules should be compatible with all monitors quoted.	
Bed to bed communication between the monitors should be possible with out a central station.	
Networking to central station should be possible and price of central station should be offered as optional	
Patient monitoring network shall use standard TCP/IP protocol and be capable of residing on hospital's network infra-structure.	

Should be compatible with HIS and should be HL7 compliant.	
Monitor should provide remote viewing of real time waveforms through internet.	
Patient monitoring network shall be able to support up to 1,000 monitoring nodes.	
Should be supplied with necessary accessories for adult , pediatric and neonatal accessories.	
Accessories and spares	
1. ECG / respiration: 5 lead ECG cable and lead wire set per monitor	
2. NIBP: Adult: 2 sizes and Pediatric 2 sizes and neonatal, 1 size per monitor	
3. SpO2 Sensor: Adult sensor with cable, pediatric sensor with cable and neonatal sensor with cable per monitor	
4. IBP: Include 10 nos of disposable pressure transducer with bracket and interface cable per monitor	
5. Temperature: Skin and nasopharyngeal probes per monitor.	
The equipment should be CE & US FDA Approved.	
Central Monitoring Station for multi para monitor:	
System should have minimum 16 beds capability.	
Central station should have 17" color display.	*
Should have drug dose and hemodynamic calculations.	
It should have possible to view information such as vital signs, alarm status, arrhythmia analysis, trended parameters, patient data etc for any selected bed from the central station.	
Should have separate computer keyboard and 4 channel thermal array recorder.	
should have default alarm limits and customizable parameter settings.	
Central station should have full bed review capability.	
Central station should be able to be configured as a bedside monitor if required.	
Should have 24 hours trends.	
Should have capability for HL7 interface. Should be capable of monitoring telemetry modules.	
All system should have CE & FDA certifications.	
Should be supplied with a On-line suitable UPS	
Note: Price of MULTI PARAMETER MONITOR and CENTRAL MONITORING STATION should be quoted separately.	
□	
Item No. 3	
Multipara Monitor	
Patient monitor system should be of modular type and capable of monitoring adult, pediatric & neonatal patients.	
Monitor should have 17" independent flat panel display.	
Touch screen user interface .	
Module rack / housing should be independent and shall be able to be placed near to the patient.	
Should be capable of 8 traces display.	
Monitor must be capable of simultaneously monitoring the following parameters which should be present as standard: ECG, NIBP, SpO2, invasive pressures (2), temperatures (2)	
Should be compatible with Capnography, Cardiac output, 4 channel direct EEG, and BIS and prices to be offered as optional for each module separately.	
ECG should have capability for 3, 5 and / or 10 lead monitoring and should have built in arrhythmia monitoring on all leads.	
Inbuilt ST segment analysis and arrhythmia detection for all the leads should be possible.	
Haemodynamic and drug dose calculations should be available.	
Arrhythmia should be grouped based on classifications – and should show no of arrhythmias occurred.	

Respiration should be available with Cardio Vascular Artifact filter.	
ICP monitoring should be possible.	
Alarm parameter should flash red in the presence of high priority alarms (e.g. ventricular fibrillation and asystole) and flash yellow in the presence of medium or low priority alarms (e.g. noisy signal, etc.)	
24 hours trend data should be displayed.	
All monitors including central station should have similar user interface for easy usage among all clinicians.	
Monitor shall provide the capability to interact with alarms at remote bedsides.	
Monitor shall provide the capability to receive and display real-time waveforms, trended data and alarm status from other bedside or telemetry units on the patient monitoring network.	
Monitor shall provide the capability enter patient information at the bedside or central monitor.	
On-screen keyboard for entering this data is preferable. Should have USB ports to connect mouse, key board, bar code scanner.	
Alarm limit status (ON/OFF) must be indicated on-screen for each parameter and actual parameter alarm settings must be displayed on-screen when alarms are on.	
Position of the displayed waveforms must be user configurable.	
Waveform color changing should be user configurable.	
Monitor shall permit the optional ability to receive and display information from other patient devices such as ventilators, infusion pumps and other standalone devices.	
All modules should be compatible with all monitors quoted.	
Bed to bed communication between the monitors should be possible with out a central station.	
Networking to central station should be possible and price of central station should be offered as optional	
Patient monitoring network shall use standard TCP/IP protocol and be capable of residing on hospital's network infra-structure.	
Should be compatible with HIS and should be HL7 compliant.	
Monitor should provide remote viewing of real time waveforms through internet.	
Patient monitoring network shall be able to support up to 1,000 monitoring nodes.	
Should be supplied with necessary accessories for adult , pediatric and neonatal accessories.	
Accessories and spares	
1. ECG / respiration: 5 lead ECG cable and lead wire set per monitor	
2. NIBP: Adult: 2 sizes and Pediatric 2 sizes and neonatal, 1 size per monitor	
3. SPo2 Sensor: Adult sensor with cable, pediatric sensor with cable and neonatal sensor with cable per monitor	
4. IBP: Include 10 nos of disposable pressure transducer with bracket and interface cable per monitor	
5. Temperature: Skin and nasopharyngeal probes per monitor.	
The equipment should be CE & US FDA Approved.	
Item No. 4	
Bio-safety Cabinet	
simple operation for ultimate safety with 60% less energy consumption and heat output that complies with the EN 12469	
Dimensions Exterior dimensions with stand (w x h x d) 1300 x 2200 x 795 mm (51.2 x 86.6 x 31.3 in)	
Interior dimensions (w x h x d) 1200 x 780 x 495 mm (47.2 x 30.7 x 19.5 in)	
Work surface with adjustable stand 750 to 960 mm (30 to 38 in)	
Interior work surface area 0.56 m2 (930 sq. in)	
Working height of front window 200 mm (8 in)	
Maximum lifting height of front window 535 mm (21 in)	
dimensions (w x h x d) 1410 x 1700 x 925 mm	
Weight Net weight ~240 kg (~530 lbs)	
Shipping weight ~260 kg (~575 lbs)	
Maximum weight load of one-piece work tray 50 kg (110 lbs)	

Maximum weight load of divided work tray 25 kg (55 lbs) (max of 50 kg)	
Ventilation System Exhaust/inflow air volume 400 m ³ /h (230 CFM)	
Heat emission at 25°C ambient ~0.15 kW	
Filter Specification Supply/exhaust air filter HEPA H 14 EN 1822,	
Additional exhaust filter option (AEF) HEPA H 14 EN 1822,	
Performance Certification EN 12469; GS Nord Cert-TÜV	
Sound pressure level <55 dB (A)	
Lighting power >1200 lx	
Electrical Data Voltage 1/N/PE 230 V	
Frequency 50 Hz	
Power consumption 0.4 kW	
Current consumption 1.7 A	
Protection class I / IP 20	
Protective measure Conductor connection Conductor connection	
Individual precautions on customer side Lead fuse (slow blow) T 16 A or circuit breaker B 16. The local electrical regulations in the country of	
use as well as the relevant connection conditions must be observed. The national regulations for electrical engineering as well as the relevant technical connection conditions must be taken into account.	
Supply Management Supply requirement 230 V, 50/60 Hz standard supply. Total requirement including interior sockets 13-16 Amps.	
Receptacles The receptacles have a load capacity of up to 5 A and are protected with T 5 A fuses. When all	
receptacles are in use simultaneously, they must not exceed the maximum total load capacity of 5 A.	
Radio interference Circuit is interference free in accordance with EN 55 014	
Service valves Up to 4 (installed through access ports)	
Receptacles One double, right side	
Item No. 5	
LAMINAR FLOW- VERTICAL	
Hepa Filter : 99.999 %efficiency for particles >0.3 µm	
Pre-Filter : 85 %efficiency for particles >0.5 µm	
Particle Count : Better than US Fed Std 209B Class10 and VDI 2083 Class 3	
Cabinet : Laminated High Quality Wooden Board	
Work Table : AISI 304 Stainless Steel	
Airflow Speed Control : Speed Controller (Three Step Speed Controller)	
Blower : High efficient centrifugal type with lifetime lubricated bearings	
Light : High intensity,low wattage >800 lux	
Noise Level : <55 dBA	
Standard Accessories : Air/gas cock and .mains power socket (16A)	
Power Supply : 220-230 V,50 Hz.	
Power Consumption : 400 w	
Internal Work Space: 600mmx600mmx600mm	
900mmx600mmx600mm	
1200mmx600mmx600mm	
1500mmx600mmx600mm	
1800mmx600mmx600mm	
Net/Packed Weight kg : 70kg/98kg to 185kg/257kg (Model specific)	
All dimensions are approximate with open tolerance.	

Item No.6	
Holter recorders and Analyzers	
1 It should have FDA clearance and CE certification	
2 It should meet and exceed the requirements of ANSI / AAMI EC 38	
Holter Recorders	
1 It should be small and lightweight recorder	
2 It should be capable of simultaneous real time acquisition of 3 channel and 12 channel recording.	
3 Recorder should have LCD display to preview ECG waveforms during the patient hook up and have lead quality check function.	
4 it should have capability of continuous recording for 24 hours and 48 hours / 7 days.	
5 It should have at least 24 hours with single battery.	
6 The recorder should be water resistant.	
7 Recorder should be battery operated and have single AA/AAA battery or rechargeable in built sealed battery with recharging unit supplied.	
8 It should have internal memory for 99 full disclosure readings.	
9 it should have advanced signal processing algorithms to provide superior accuracy in beat detection, labeling and noise rejection.	
10 It should be a 12 channel analyzing system.	
11 it should have capacity to download 24 hours data through USB port / standard connection port in less than 3 minutes.	
12 Device should be defibrillator protected.	
13 Recorder should have 1000s/sec/channel digital sampling rate for standard recording and internal storage.	
14 Recorder should have compact flash card memory card.	
15 it should be capable of pacemaker spike detection.	
16 it is preferable if it supports voice recording capability.	
17 It should include 2 sets of electrodes and patient cable to enable 3 and 12 channel recording.	
18 It should come in 2 sets of patient hook up pouch and hook up accessories.	
19 Should include compact flash card as required for each recorder with adequate capacity to store entire recording cycle.	
20 It should include cable for connecting and downloading data to PC.	
21 It should include compatible flash card reader.	
22 It should include users guide and technical manual as well as quick guide and patient hook up instruction posters for easy reference and use.	
23 It should include 100 sets of patient event recording diary and pens.	
24 It should have two years warranty on recorder / memory card and 6 months for cable.	
Analysis software + Hardware.	
1 It should have multiple scanning options like retrospective, prospective and superimposition scanning modes, event and template review and be customizable.	
2 It should have facility to convert final report into PDF and XML format that enables connectivity to data management systems.	
3 It should have trend graphs for HR, RR interval, RR variance, 12 lead ST, SVPB, VPB etc and provide graphic display options.	
4 It should have different beat classifications.	

5 It should have various rhythm analysis and ST measurements.	
6 It should have 3 and 12 lead ST segment measurement analysis.	
7 It should be capable of Pacemaker analysis including atrial, ventricular and dual chamber pacing and under / over sensing and capture failure.	
8 It should support customizable report format including patient data, 24 hour profile, selective printing of rhythm strips and trends, summary statistics in tabular and narrative format and support user defined acronyms for comments.	
9 The PC + Printer provided should be Intel Pentium IV 2.5 GHz and above and include minimum hard disk of 250 GB / DVD+RW drive or Blue Ray disc writer / USB port/4GB RAM/10"TFT color monitor, Laser printer. Should have one year on site warranty.	
10 It should have capacity to archive into hard disk and DVD+RW / High density DVD / Blue Ray disk.	
11 It should include licensed operating software for ready to use status along with reliable anti virus software. These should have back up provided on CD / DVD.	
12 It should include external data back up / archiving facility and hardware.	
13 All trainer manuals should be supplied and on site installation to complete satisfactions of end user.	
14 Training of 2 technicians to operate and use the equipment and software to be provided at the company expense.	
15 Assurance of 95% uptime and prompt provision of service back up for hardware and software with replacement to maintain operational equipment as required.	
16 It should have one year warranty for all hardware and 6 months for software.	
Item No.7	
Blood Bank Refrigerator	
General	
Should operate at 4 °C with +/- 1 °C temperature uniformity	
Must be designed for blood bank use. Commercial or modified commercial refrigerators are not acceptable	
Should be able to pass through standard door heights of 201 cm (79") with casters without requiring the unit to be tipped or laid on its side.	
Should be CE marked.	
Construction	
Should have an interior and exterior that is constructed of minimum 20 gauge, galvanized steel.	
Should incorporate) bacteria resistant, powder coated interior, exterior and door handle.	
Should have a minimum non-CFC urethane insulation	
Should utilize a self-closing door with full-length handle, key lock and non-CFC urethane insulation.	
Should include swivel-locking casters as a standard feature.	
Should incorporate a recessed interior floor to contain spills.	
Should have a chamber access port in the top of the unit.	
Should have an interior fluorescent light with control panel mounted switch as a standard feature.	
Should have a light bulb that can be changed without removing the drawers.	
Should have dual-pane, glass door and key lock with a right hand hinge.	
Should have self-closing door system	

Independent Temperature Controller	
Should utilize an independent, microprocessor temperature controller that is programmable from +2° C to +8° C.	
Should have a Microprocessor controlled temperature readout, readable in 0.1° C increments.	
Should have a stainless steel, RTD temperature probe that is located in the chamber.	
Should have all functions accessible through a touch pad on the control panel.	
Should have refrigeration system "On" indicator provided as a standard feature.	
Independent Alarm / Monitor System	
Should be able to program the high and low temperature alarms.	
Should have audible and visual high and low temperature alarms as a standard feature.	
Should have a stainless steel RTD temperature probe located in the top portion of the chamber in a product simulation bottle.	
Should have audible and visual door ajar alarm as a standard feature. Must have all functions accessible through a touch pad on the control panel. Should have an alarm silence button.	
Should have alarm disable switch. Should have remote alarm contacts as a standard feature.	
Should have battery backup with a minimum of 2 hours life.	
Should have a power fail alarm as a standard feature.	
1.5 Temperature Recorder	
Must have four inch, 7-day, ink-less, pressure-sensitive circular chart recorder.	
Must have chart recorder temperature range of -5°C to +20°C.	
Must incorporate a separate battery backup to ensure continuous operation of the chart recorder during power failure.	
Must have temperature recorder probe that is independent from other probes.	
Must have power status indicator.	
Must have an optional deduction of the chart recorder.	
. Should have LCD Temperature Graphs that should display 24 continuous hours of data and event logging of door openings and alarm conditions.	
. Should have adjustable alarm volumes and password protected configurations.	
Refrigeration System	
Must incorporate a heavy-duty, air-cooled refrigeration system designed to operate on 230 volt 50/60 Hz.	
Must utilize non-CFC, commercially available refrigerant.	
Must have an automatic condense evaporator as a standard feature.	
Must have an internal evaporator fan that shuts off when the door is opened.	
Must have a compressor that can maintain required chamber temperatures when operating between 200-240 volts and 50 Hz.	
Must incorporate a defrost system that requires no defrost timer, electric heaters or defrost down time.	
Must keep the refrigerator free of frost without elevating the chamber temperature.	
Drawers	
Must have solid bottom and liquid tight stainless steel drawers for containment of spills	
Must incorporate Scratch-Guard drawer edge protectors that keep the glass from being scratched.	
Must have fully extendable drawer slides.	
Must have shelf standards with a clear powder-coated finish to guard against rust and corrosion.	
Must have drawers that are adjustable	
Must have optional drawer dividers available as an accessory.	
Must have a cabinet designed to accommodate available optional half-size wire shelves, full-size wire shelves and rollout wire baskets with no cabinet modifications.	
Electrical	
External transformers are not acceptable.	

Item No.8	
Deep Freezer - 86 Deg	
VOLTAGE: 220V/50Hz CAP: 17. Cu.Ft / 484 LITERS	
- TEMP: -50 TO -86 ⁰ C , MICROPROCESSOR CONTROL	
- ACCESS PORT	
- HEAVY-DUTY SWIVEL CASTERS	
- HEAVY-GAUGE STEEL CABINET WITH LONG-LASTING POWDER PAINT FINISH	
- SINGLE DOOR +KEYLOCK, DIGITAL DISPLAY	
- REFRIGERATING FLUID & INSULATION: CFC FREE.	
- ROUNDED INTERIOR CORNERS	
- EYE-LEVEL CONTROLS	
- TEMP: ALARM W/REMOTE ALARM CONTACT	
- MICROPROCESSOR ALARM	
- BATTERY BACK-UP	
- AUDIBLE/VISUAL OVERTEMPERATURE ALARM	
- LOW VOLTAGE BOOSTER	
- HOT GAS HALO HEART	
- FIVE (5) AIR INSULATED INNER DOORS	
- FOUR (4) SHELVES – 3 ADJUSTABLE	
- BASE MOUNTED CONTROLS	
- MULTI-POINT GASKET SEALS	
- AUTOMATIC VOLTAGE BOOSTER	
- SET POINT SECURITY SYSTEM	
- INDEPENDENT OPERATING TEMPERATURE AND HIGH/LOW LIMIT ALARM	
- AUTOMATIC VOLTAGE BOOST	
- ON-BOARD MONITORING	
- AIR-COOLED CASCADE REFRIGERATION SYSTEM	
- 2 X 1 HP BRISTOL AIR-COOLED COMPRESSORS (20 & 24 FT2 MODELS)	
- 2 X ½ HP BRISTOL AIR-COOLED COMPRESSORS (13 & 17 FT2 MODELS)	
- EFFICIENT DOWNFEED EVAPORATOR	
- HIGH CAPACITY AIR-COOLED CONDENSER	
- HEATED DOOR SEALS (HOT GAS) MINIMIZES FROST BUILD-UP AROUND DOOR	
GASKET	
- DOOR LATCH CAM ACTION WITH KEY LOCK, ONE HAND OPERATION	
- DOOR HANDLE FULL LENGTH FOR EASY ACCESS	
- CHART RECORDER 7 DAY 6 ”	
Item No.9	
PLATELET INCUBATOR & AGITATOR	
PLATELET INCUBATOR	
PLATELET INCUBATOR SHOULD HAVE THE PROVISION TO STORE THE AGITATOR FOR 48 PLATELET BAGS AGITATOR.	
SHOULD HAVE CLEAR VIEW SINGLE PANE TEMPERED GLASS	
AGITATOR SHOULD STOP AUTOMATICALLY ONCE THE DOOR IS OPENED.	
SHOULD HAVE MICROPROCESSED CONTROLLED LED DISPLAY,TEMPERATURE GRAPH DISPLAY,	
SHOULD HAVE STAINLESSSTEEL RTD SENSOR PROBES	
SHOULD HAVE PROVISION FOR 4”7DAY INKLESS CHART RECORDER WITH BATTERY BACKUP FOR CONTINEOUS OPERATION DURING POWER FAILURE.	

SHOULD HAVE ALL CONTROLS IN ONE CONVENIENT LOCATION INCLUDING CHART RECORDER AND ALARM KEY	
SHOULD BE ABLE TO MAINTAIN A TEMPERATURE OF 22 DEGREES WITH +_ . 1DEGREES VARIATION.	
PLATELET AGITATOR	
SHOULD BE ABLE TO STORE MINIMUM 48 RANDOM PLATELET BAGS OR APHERESIS BAGS OR BAGS OF DIFFERENT SIZES. With GENTLE SIDE TO SIDE MOTION (1 ½" 38MM)	
SHOULD HAVE SINGLE FAN FOR FORCED AIR CIRCULATION.	
SHOULD BE STURDY ONE PIECE DRAWERS WITH HOLES FOR COMPLETE AIR CIRCULATION ACROSS BOTH SURFACES OF PLATELET BAGS	
Should be CE marked	
Item No.10	
AUTOMATED PLASMA THAWING EQUIPMENT	
1. SHOULD BE ABLE TO THAW 8 – 12 PLASMA BAGS (FFP/APHERESISOR PLASMA BAGS OF ANY SIZE or ANY MAKE)	
2. SHOULD HAVE WATER BATH BASED SYSTEM WHICH SHOULD BE OPERATIONAL AT 4 DEGREE TEMPERATURE TO 37 DEGREE CELCUI PRECISELY.	
3. SHOULD BE COMPACT IN SIZE.	
4. SHOULD HAVE RACK HOLDERS WITH BUILT-IN FINGERS FOR SECURELY HOLDING THE PLASMA BAGS OF ALL SIZES.	
5. SHOULD HAVE AN ALARM WHEN THE PLASMA BAGS ARE THAWED	
6. SHOULD HAVE THE PROVISION FOR SELECTING PROGRAMMED TIME SETTING FOR THE LENGTH OF THAWING CYCLE. .	
7. SHOULD HAVE DIGITAL TIMER CLEARLY DISPLAYINGTHE PROGRAMMED SET TIME OR REMAINING CYCLE IN MINUTES	
8. SHOULD HAVE ALARM SYSTEM FOR ADJUSTABLE OVERTEMPERATURE ALARM SETTING, AUDIBLE AND VISUAL ALARM WARNINGS,	
9. SHOULD HAVE A DEEP THAWING CHAMBER FOR INCREASED HEAT TRANSFER EFFICIENCIES, WHICH RESULTS IN FASTER FFP THAWING TIMES. THE CLEAN STREAMLINED DESIGN OF THE HEAVY GAUGE STAINLESS STEEL CHAMBER SIMPLIFIES ROUTINE CLEANING.	
10. SHOULD HAVE A CHAMBER DRAIN SYSTEM WITH A HIGH FLOW RATE TO DRAIN THE CHAMBER WITHIN 2-3MINUTS.	
11. SHOULD HAVE A TEMPRATURE CONTROLLER	
12. SHOULD HAVE A SERVO CONTROLLED VOLTAGE STABILIZER OF ATLEAST 3KVA	
13. Should be CE approved.	
Item No.11	
Automated Component Preparation Machine.	
1. Should work with a Vertical parallel pressure plates that is pneumatically driven.	
2.Should have a set of 13 pairs of Optical sensor to automatically control the flow of fluid in the tube.	
3.Should have an Automatic clamping and sealing device to control the flow of fluid in the tubing .	
4. Should have a Protocol to drive the clamp functions	
5.Should be able to produce over 80% leucoreduced blood components by constantly removing buffy coat	
6. Should be capable of mechanical separation and volume adjustments	
7.Should be Compatible with Top & Bottom blood Pack System	
8.Should provide log 1 leucoreduced blood components, with 5 days extended storage for platelets and 42 days extended storage for Red Cells.	
9. Should have a laser display for operator use.	
10 Should be compatible with the Bar coding System	

Item No.12	
CELL SEPERATOR	
Should be Fully automatic, Microprocessor controlled with easy access operator control panel and has a large touch screen.	
Should Perform both Single and Double needle Apheresis.	
During single needle procedure the equipment shpuld continue to process the whole blood during the return cycle to reduce the procedure time and increase the efficiency.	
Should have auto elutriation separation technique to be able to collect platelets faster with high collection efficiency to help process less blood volume.	
The disposable kit for the machine should be True Closed system disposable with pre-attached factory fitted ACD, Normal Saline and Needles as required.	
Equipment should ensure all donor safety parameters before starting the procedure and all time during operation.	
Should be Capable of collecting various single donor blood components including Peripheral Blood Stem Cells (MNC). Should be able to collect both single and double needle Platelet apheresis along with concurrent Plasma and/or RBC	
Should be capable of fully automatic PBSC (MNC) collection .. Should be Capable of doing Prime only with Normal Saline and / or mixture of Normal Saline and ACD.	
Should have a Inbuilt Cuff pressure and prompt grip for donor comfort and adequate blood flow.	
Should have a Facility to use platelet additive solution and / or normal saline for re-suspension and storage fluid in place of plasma.	
Machine should have a Advance help menu available at any time during alarm conditions.	
Extra corporeal volume should not be more than, 21 Oml & 205ml in case of both single and double needle apheresis respectively ..	
Should be equipped with a Yield estimator to help decide yield, volume to be processed and suggested storage fluid and should have a optical sensor at PRP line for online monitoring of component collection against the desired yield.	
Should be Capable of downloading or printing full procedure report any time after procedure	
Should be Capable to connect bar code reader if desired.	
Should have rechargeable battery to store data and restart in case of power failure.	
Should have Continuous monitoring of collection to avoid any contaminations through Interface detector.	
Inlet and return flow rates should be up to 100 ml./min.	
The separation of blood in the machine should be able to automatically maintain a constant hematocrit to improve collection efficiency and reduce contamination	
Item No.13	
QUALITY MIXER	
Should be A Automated Tube Stripper & Mixer to simplify & Standardize Stripping & Mixing of Blood in the tubing with the Blood in the Bag	
for preparation of Good Quality Components & Elimination of Micro Clots in the Blood Bag Tube	
THE Stripping & Mixing cycles should be adjustable from 3-10 for flexibility of usage in the Bleeding Room or for Quality Control	
Dimensions-290L X 253 W X 150H mm (approx)	
Max Weight –5 KG approx	
Power Supply- 230VAC	
Should be CE marked	

Item No.14	
O T Table C Arm Compatible	
Table top length with headrest 2060mm minimum	
Width 520mm minimum.	
Height 520 mm to 1020mm	
High storage capacity battery back up to support 50 operation cycles.	
The table shall be provided with a cable connected hand control with battery charge indicator.	
If Hand set is not working there should be another control switches which should be on the head-end of the base.This auxillary control should work on electricity as well as on batteries.	
The table should be provided with additional foot control device for the adjustment of height, lateral tilt and trendelenburg/reverse trendelenburg functions	
The table should be lock and unlocked through handset	
Five section radio-translucent table top shall have	
a)Head-rest (detachable)	
b)Back section	
c)Seat section	
d)Split Leg section (detachable).	
The table top frame and column casing should be made of stainless steel.	
The following adjustments shall be electro-hydraulically operated:-	
a)Height 520mm – 1020mm	
b)Back section up/down 80 deg./50 deg.	
c)Trendelenburg/Reverse trendelenburg 26/26 deg.	
d)Tilts left/right 20 deg.	
e)Reset to level position in one single push button.	
f)Longitudinal sliding-0-30 cm.	
The table shall be so adjustable that there shall be no obstruction to the feet of the surgeon besides generous leg-room for the surgical team.	
The following adjustment shall be manually adjusted	
a)Leg section up/down 20 deg/90 deg.	
b)Leg open ,2 pieces-0 to 180 degree	
c)Leg and head section can be removed ,adjusted and attached manually.	
d)head up/down-60 deg/90 deg	
The table shall be provided with the following standard accessories:	

a) Arm board with cushion and clamp- 2 Nos.	
b) Anaesthesia screen with clamp- 1 No.	
c) Body strap - 1 No.	
e) Lateral brace- 1 pair	
f) Headrest adaptor for Mayfield clamp -1 no.	
g) Horse shoe headrest -1 no.	
h) sitting headrest-1 no.	
10. Patient Weight Capacity should be more than 175 Kg.	
11 The table should be of international standard, i.e. C.E. & ISO.	
Item No.15	
O T Table for Minor O T	
O T Table with following specs	
Electro Mechanical Adjustments	
Height 760 mm to 960 mm,	
Trendlenberg/Rev Trendelberg,25/25 deg	
Lateral Tilt.-15 deg	
Manual Adjustments	
Backrest with gas spring up/down-65/25 deg	
Headrest Detachable	
Legrest Detachable	
Standard. Four Section Mattress – 1 Set	
Accessories	
1-Arm Board 02	
2-Anaesthesia Screen 01	
3-Body Strap 01	
4- Radial setting clamp 03	
5- Goepel Knee crutches 02	
6-Perineal cutout filter 01	
Item No.16	
Suction Machine	
Housing: Spot Welded, Oven baked cabinet	
Capacity:- 700 mm Hg \pm 10 regulable, flutter free vacuum control knob, 25 Ltrs / min.	
Pump type: Single rotary vane pump	
Jar: Wide mouthed 2 x 2 Ltrs. (Polycarbonate) with self sealing bungs and mechanical over flow safety device.	
Tubing: 8 mm ID x 2 mtr (PVC)	
Vacuum Gauge: Bourden type 6.5cm. Dia. 0-760 mm Hg calibration.	
Power: 230 V, 50 Hz, 2 \pm 0.5 Amps, 200 watts. (110 V on request)	
Noise Level: 50 dB A \pm 3 Almost whispers.	
Dimension & Weight: 43 x 30 x 68 cms. & 27Kg. (approx)	

Item No.17	
AED(Automated External Defibrillator)	
Should be a low energy biphasic defibrillator, monitor with recorder .	
with maximum energy of 200 Joules	
Should work on manual and external automatic external defibrillation (AED) mode.	
Should monitor ECG through paddles, pads and monitoring electrodes.	
Should defibrillate through paddles, pads.	
Should compensate for body impedance in range of 25 to 150 ohms.	
Should be able to do synchronised cardio version.	
Should have a built in strip printer.	
Charging time of less than 5 to 6 seconds for maximum energy.	
Should have paddles contact indicator.	
Should have alarms for high and low heart rate	
Should have voice prompts on A.E.D. mode	
Should have battery back up for discharges	
Should have facility to measure SpO2.	
Should have facility for transcutaneous demand and fixed mode non invasing pacing.	
Should have FDA approval and CE mark.	
Should be supplied with following accessories :-	
a) Adult / Pediatric paddle – 1 pair	
b) 3 Lead ECG Cable - 1No.	
c)Adult SpO2 Finger Probe – 1No.	
d)Adult pacing pad – 1 box of 10Nos.	
Item No.18	
Blood Gas Analyzer	
• A fully automated pH/Blood gas/electrolyte analyzer measuring the following parameters: -	
pH, PCO2, PO2, Barometric pressure.	
Na, K, Ca, Cl	
Co-oximetry: ct Hb, CCO Hb, Met Hb, Sulf Hb, Haematocrit and Barometric pressure.	
• Sample volume should be approximate 100 µl for all parameters.	
• All calibration and cleaning cycles should be fully automated with user selectable calibration items.	
• Calibration should be performed by liquid calibration for all parameters.	
• The electrodes provided should be zero maintenance including the reference electrode.	
• The system should have on board data manager to store all patient results, QC data and calibrations.	
• The system should have a closed waste system and monitored continuously. Also all the system reagents should be monitored continuously.	
• A power fail protection for 20 min.to take all calibration and programmed data.	
• The analyzer should have a colour LCD screen to access all the system software and to display the patient's results. With alphanumeric key board/touch screen.	
• A built in thermal printer should be provided to print out patient results.	
• The system should work in discrete testing, ie, selectable parameter testing.	
• Should be supplied with consumable, reagents and QC agents for 1000 tests, as per the user requirements so that they do not expire.	
• Should not preferably use special gases	

Item No.19	
3 Channel ECG Machine	
Power Supply should be 260 VAC	
Power Consumption should be 42 W	
Leakage current < 20 micro Amp	
Time constant < 3.2 sec	
Filters - Digital AC 50 Hz	
Inbuilt battery type Li-ion	
Battery rating 7.4 V/ 2000 mAh	
Recharging time - max 8 hrs	
Operating time-<40 40 ECG/6 hrs stand by	
Leads 12 leads standard	
Mode of Operation - Auto & Manual	
Should have Long lead print -	
ECG print style - 3+ long lead / 6 lead	
Should Have Display lead	
Frequency response - 0.05 to 125 Hz	
Sweep Speed - 12.5 / 20 mm/mV	
Sensitivity 5 / 10 / 20 mm/mV	
CMRR > 90 dB	
Input impedance > 100 M ohms	
Patient storage dataLatest 5 patients	
Measurement HR,Axis, Interval, Average & voltage Measurements	
Display type LCD (70.00 mm x 40.00 mm)	
Display resolution 64 X 128 Pixels	
Printer type Thermal Array Rec./ Desk jet printer	
Paper width 108 mm	
Should have PC interface	
Should Have Memory stick interface	
Weight <1.5 Kg	
Dimensions 255 L x 180 W x 70 H (mm)	
Temperature - 25-55'C	
Pressure 50 - 160 Kpa	
Humidity Upto 90% non-condensing	
Temperature -25-55'C	
Pressure 50 - 160 Kpa	
Humidity Upto 90% non-condensing	
Should have standards : EN 60601-1-1, EN 60601-1-2, EN 60601-1-25, CE & ISO 13485	
Item No.20	
500 M.A. X-ray machine	
A. Generator:	
1. Generator should be high frequency/inverter type for constant output.	
2. Output 50 kw or more.	
3. Kv range 40 kv – 120 kv.	
4. Output at 100 kv should be 500 ma or more.	
5. It should have automatic exposure control device.	
6. It should have digital display of kv & mas.	
7. Anatomical programming radiography should be possible.	
8. It should have over loading protection.	

B. X – ray tube and collimator:	
1. The x-ray tube should be rotating anode high speed, compatible with the generator and must have dual focus. Focal spots of following sizes:	
Large focus: 1.2/2.0 mm or better.	
Small focus: 0.6/1.0 mm or better.	
Tube with anode heat storage capacity 150 khu or more.	
2. Motorized collimator having additional filters (for dose reduction) and auto shut provision for the light.	
C. X – ray table:	
1. Horizontal table with floating table top.	
2. It should have transverse + 10 cm or more and longitudinal movements + 35 cm or more with electromagnetic brakes.	
3 It should be thin table top.	
4. It should be provided with bucky which can hold all standard sizes of cassettes upto 14"x17".	
5. Bucky should have a grid ratio 10:1 or more with 65 lines per cm.	
D. Vertical bucky stand:	
1. It should have provision to do chest radiography with grid.	
E. Essential accessories: the following essential accessories to be provided with the unit.	
1. Lateral cassette holder – one.	
Should be supplied with following:	
· Dark room light	
· One set of all dark room accessories	
· Whole body (upper and lower) lead apron (standard make) – 8 nos.	
· Three Panel Lead screen (with lead glass window)– 2 nos.	
· Lead lining for door of size 215cm X 152 cm	
· Apron & glove hanger:	
Heavy duty multiple glove and apron hanger wall or floor mounted. Stainless steel construction. Holds two pairs of gloves and two lead aprons. Dimensions: 76 x 46 x 25 cm approximately.	
All necessary AERB / BARC approvals.	
Item No.21	
Cytospin	
Centrifuge should be designed for the preparation of cytological specimens.	
Should have program memory storage in case of power failure.	
Should have spinning speed programmable for speeds of 200 – 2000 rpm.,	
Should have time window to display programmed time and remaining time from 1 – 99 minutes.	
Safety alarm – audible alarm if the centrifuge is out of balance, outside the speed tolerance or if the lid is not properly locked.	
Unit should not spin if the lid is not locked	
Specimen safety alarm should be incorporated; users to be reminded in specific intervals to remove specimen, protect hem from air drying and improve consistency of results.	
System design should prevent accidental spillage and should allow for easy disinfection.	
System should have CE, GS, and UL certifications.	
Enclose Gold standard products with supporting documents like traceability certificate and QC certificates.	
Country of origin certificate along with date of manufacture certificate mandatory.	
Should provide FDA / CE certifications.	

Item No.22	
Trinacular Research Microscope	
Wide field 10X plan eye pieces with plan achromatic objectives 5x, 10x 40x and 100x (oil immersion)	
Latest technology LED type high power white light illumination.	
X-Y stage with interchangeable left/right hand operations for both type of users.	
Focus control with coarse and fine focuses facility	
Latest type highly scratch-proof hard plate ceramic stage.	
Trinocular, 30-35° viewing angle with reasonable inter papillary adjustment 50 – 802 mm.	
Flourescence with 50W Hg illumination with filters for UV, Blue and Green excitations.	
Peltier cooled digital camera with 10 mega pixel live resolution and upto 8 MP scaled resolution.	
CCD sensor size of 8.10 x 6.64 mm (1/1.8 inch CCD sensor)	
12 A/D converter with 36 bit color depth image.	
2 x 2 Binning facility (Optional)	
Camera should have provisions of both color and grey scale images.	
Escuaaion device for two observers.	
Universal condenser.	
Microscope for phase contrast, dark field, photomicrography, CC TV, polarizing, Flourescet microscopy,	
Dual observation tube, Trinocular head, Infinity corrected optic system.	
In-house training and free installation to be provided.	
System should be FDA and CE marked.	
Item No.23	
Micro pipettes	
<ul style="list-style-type: none"> • Light weight and ergonomic design for user comfort. • Super blow-out for micro volume pipetting (0.2-50 µl models) and anti-vortexing for large volume pipetting (1-5ml and 2-10ml models). • Soft-touch tip ejection. • Easy in-lab recalibration and maintenance. • Fully autoclavable. • Three years warranty. 	
Micropipette	Volume
Variable Volume Micropipettes	0.5-10µl
Variable Volume Micropipettes	2-20µl
Variable Volume Micropipettes	5-50µl
Variable Volume Micropipettes	10-100µl
Variable Volume Micropipettes	20-200µl
Variable Volume Micropipettes	100-1000µl
Variable Volume Micropipettes	200-1000µl
Fixed Volume Micropipettes	1-5ml
Fixed Volume Micropipettes	5 µl
Fixed Volume Micropipettes	10 µl
Fixed Volume Micropipettes	20 µl
Fixed Volume Micropipettes	25 µl
Fixed Volume Micropipettes	50 µl
Fixed Volume Micropipettes	100 µl

Fixed Volume Micropipettes	200 µl
Fixed Volume Micropipettes	250 µl
Fixed Volume Micropipettes	500 µl
Fixed Volume Micropipettes	1000 µl
Micropipette	Volume
Multichannel Micropipette	Micropipette 8 Channel, 1.0- 10 µl
Multichannel Micropipette	Micropipette 8 Channel, 5- 50 µl
Multichannel Micropipette	Micropipette 8 Channel, 10- 100 µl
Multichannel Micropipette	Micropipette 8 Channel, 30- 300 µl
Item No.24	
Cryostat system	
Section machine selection 1 – 60 µm in	
1 µm steps from 1 to 10 µm	
2 µm steps from 10 to 20 µm	
3 µm steps from 20 to 60 µm	
Maximum specimen size is 55mmØ	
Total horizontal specimen feed 25 mm	
Total vertical specimen store 50 mm	
Specimen orientation with o positioning 8° x/y part of standard delivery.	
Trimming – via motorized coarse feed.	
Motorised coarse feed – 2 speed setting rapid: 0.65 mm/sec. Slow” 0.3 mm/sec	
Refrigerating capacity:	
Temperature selection range - 0° to – 30° C	
Time required to refrigerate to -30° C approximate 3 hours at 22° C ambient temperature.	
Chamber defrosting automatic hot gas defrosting cucle duration 8 min starting time freely programmable.	
Manual defrost cycle on demanding temperature of quick freeze shelf max -45° at a cryo chamber temperature of -30° C	
Quick freeze shelf defrosting – manual defrost in demand.	
System should be FDA and CE marked.	
Item No.25	
Cell Counter (Fully automated 5 part differential haematology analyser)	
· Automated hematology analyzer should include 24 parameters including histogram for RBC, WBC and platelet.	
· Should have impedance principle for counting and photometer for hemoglobin.	
· It should read at least 60 samples per hour or more.	
· Should have dual channel measurement.	

· Double dilution chamber
· Sample volume less than 200 micro litres in whole blood and pre –dilute mode.
· It should have various types of discrete mode and real time random access analysis to save reagent consumption and analysis time.
· Sampling needle should have automatic wash from inside and outside.
· LCD / VGA Monitor with graphical user interface (GUI) for easy operation.
· Large illuminated colored VGA or LCD should display the result of all parameters and histogram together.
· Should have sample manual and capillary mode.
· Should have capacity to store at least 20000 numeric patient results and 5000 graphics.
· Should have inbuilt / External graphic printer.
· Should have RS232 serial and parallel port can be connected with LAN and laser printer.
· Should have a membrane keyboard for routine operations and maintenance with option to attach external key board for patient demographic entry at instrument operation.
· Should have three dimensional technology or Flow cytometry for differential analysis to maximize resolution, specificity and efficiency.
· Should have extended analysis time for cytopenic sample. .
· Should be able to integrate with optional automated slide maker and stainer.
· Should have zero routine maintenance with automatic electronic aperture cleaning and back flush after each sample.
· Instrument should accept all types of vacutainer tubes.
· The instrument should have option for auto sampler, bar code reader.
· Reagent cost per cycle including start up and shutdown if 200 & 500 samples are processed at a time should be submitted separately in the financial bid.
· There should be automatic storage of calibration data and extensive quality control programme with LJ plot for at least 8 control lots and at least 25 runs per lot.
Basic common necessities:
· Input Voltage 230 volts 50 Hz as per Indian standard.
· Service manual and technical data with all necessary passwords without any obligation.
· Instruction and operational manuals without any obligation.
· UPS preferably sine wave based with maintenance free batteries with duration two hours.
Item No.26
ELISA Reader with Washer
1. Description of Function
1.1 ELISA Reader is required to Read the Colour Density known as OD(Optical Density) in ELISA (Enzyme Linked Immuno-Sorbent Assay.)Plates.
2 Operational Requirements
2.1 Only ELISA Reader is required.
3 Technical Specifications
3.1 OPTICAL SYSTEM
Digital light control
8 measurement channels including 1 reference.
Single and dual wavelength measurement with facility for kinetic measurement
8 s maximum measurement time for single and dual wavelength and 5 s(+/- 1Sec.) for kinetic
Measurement Range 400-700nm
Indication Range 0-2.999 abs
Accuracy Plus/Minus 2% or Plus/Minus 0.005 abs
Resolution 0.001 abs
Inbuilt Filters: Narrow band interference
Should have the following filters – 405, 450, 492(+/- 2nm), 540, 620 (+/-10nm)

and 690 nm	
Should measure end point, curves and kinetic.	
3.2 SOFTWARE:	
Storage of immediately preceding measurement At least 15 user programmable tests permanently stored	
Time programmable between each measurement. Agitation programmable before each reading	
Bidirectional printer interface.	
Data memory through computer	
Built in Windows based software programming software.	
3.3 MEASUREMENT MODES	
Plate shaking mode for sample mixing (selectable speed and time)	
Flexible blank mode setting	
Matrix Modes: Matrix -/x/t, Matrix-/0-0 (Range), Matrix-/f/(Floating cut off)	
Difference Mode: Absorbance of each well in even numbered subtracted from those of odd numbered columns	
Curve fit Modes: LIN/LIN.LIN/LOG.LOG/LOG or auto curve transformation with ability to add the standard curve; 8 to 12 way string orientation or kinetic modes	
Table of optical densities, Delta DD, Graphic, Reaction rate/V-Max	
3.4 Adjustable for different micro plate geometrics	
3.5 Halogen Lamp 20 - 40 W.	
3.6 16 digit alphanumeric fluorescent display	
3.7 Membrane keyboard.	
3.7 Technical Specifications for washer	
3.1 Auto strip washer for 96 well plates / strips	
3.2 1 x 8 strips/ 1x12 strips.	
3.3 Dispensable wash volume 50 - 300 µl.	
3.3a Residual wash Volume -<0.5µl	
3.4 Aerosol Shield for user safety.	
3.5 In built shaking facility	
4 System Configuration Accessories, spares and consumables	
8-12 channel manifold, all tubing sets, wash, rinse and waste bottles	
Maintenance kit to be provided.	
4 System Configuration Accessories, spares and consumables	
4.1 System as specified-	
4.2 Halogen Lamps : 2	
4.3 Printer inbuilt or external to be supplied along with 10 Rolls/Z Fold	
4.4 Dust cover.	
5 Environmental factors	
5.1 The unit shall be capable of being stored continuously in ambient temperature of 0 -50deg C and relative humidity of 15-90%	
5.2 The unit shall be capable of operating continuously in ambient temperature of 10 - 40deg C and relative humidity of 15-90%	
6 Power Supply	
6.1 Power input to be 220-240VAC, 50Hz fitted with Indian plug	
6.2 Resettable over current breaker shall be fitted for protection	
6.3 Suitable voltage corrector/stabilizer	
6.4 Suitable UPS with maintenance free batteries for minimum one-hour back-up should be supplied with the system.	
7 Standards and Safety	
7.1 Comprehensive training for lab staff and support services till familiarity with the system.	

7.2 Should be compliant to ISO 13485: Quality systems - Medical devices - Particular requirements for the application of ISO 9001 applicable to manufacturers and service providers that perform their own design activities.	
7.3 Should be FDA or CE or ISI approved product	
8 Documentation	
8.1 User/Technical/Maintenance manuals to be supplied	
8.2 Certificate of calibration and inspection from factory.	
8.3 List of Equipments available for providing calibration and routine maintenance support as per manufacturer documentation in service / technical manual.	
8.4 List of important spare parts and accessories with their part number and costing.	
8.5 Log book with instruction for daily, weekly, monthly and quarterly maintenance checklist.	
The job description of the hospital technician and company service engineer should be clearly spelt out	
Item No.27	
Urine Analyser	
Two Different strips can run on the system	
Combur 10M : Glucose, protein, pH, Leucocytes, Nitrite, Ketones Bilirubin, Urobilinogen, Blood, SG (10 parameter)	
Combur 9 :Glucose, protein, pH, Leucocytes, Nitrite, Ketones, Blood, Bilirubin, Urobilinogen	
Test strips for glucose and blood should be ascorbic resistant.	
Features	
Measurement should be reflectance photometer with 470nm, 555nm, 620mm.	
Start position for emergency samples.	
Liquid level detector facility should be available.	
· Sample : Uncentrifused Fresh Urine, minimum volume 1.5 ml.	
· Analysis time – less than 1 min	
· Sample throughput – approx. 60 test strips/hours (normal Mode)	
more than 400 tests/hr. System should be able to accommodate at least 75 samples through rack.	
· Calibration through dry strips for better results .	
· Totally Maintenance Free System	
· Light Source - LED	
· Wavelength measurements - 470nm, 555nm, 620 nm	
· Data display on Touch screen monitor	
· Data printout on fast low noise thermal printer	
· Memory for 1000 patient results with time and date, 3×100 Controll	
· Simple Touch Screen operation	
· Flagging of abnormal results	
· Interfaces - 1 x RS 232	
Integrated bar code reader.	
· 110V to 240V AC operation	
· Weight - 12 Kg	
· CE / CB / UL/CUL approved	
Accessories	
· Required Accessories Kit for 200 sample testing for all parameters specified above	
· User Manual	

Item No.28	
Coagulation Analyzer	
System should be bench top, compact random access analyser for routine coagulation and chromogenic assays.	
Should have the facility for diluting and dispensing of sample and reagent, - preheating and level sensors to be available.	
On board QC and display of calibration curves to be available.	
System should have a through put of 80 -100 samples per hour.	
Should measure PT, APTT, Fibrinogen, TCT and factor assays.	
Should report in secs (PT), %, INR g/l or mg/ml (fibrinogen)	
In-house training and free installation to be provided.	
System should be FDA and CE marked. Certificates should be enclosed	
Item No.29	
Centrifuge 24-36 Tubes	
1 Description of Function	
1.1 Centrifuges are required in the Laboratory to separate various components of Blood for analysis.	
2 Operational Requirements	
2.1 Aerodynamic compact construction for vibration free performance	
2.2 Table top version	
3 Technical Specifications	
3.1 Angle Head rotor with Tube Capacity Size 5 – 15 ml	
3.2 To have capacity to hold 24-36 tubes at a time.	
3.3 Should have a digital timer	
3.4 Body should be made of strong fabricated & corrosion resistant steel	
3.5 Control panel – for start/stop switch, dynamic brakes, step less speed regulator with zero	
start switch & speed indicator with timer and protective fuses.	
3.6 Door interlock	
3.7 Maintenance-free brushless drive motor with exact speed pre selection and alphanumeric	
interactive LCD digital display in control panel of RPM & RCF. Speed range 100 to 6000	
rpm and above.	
3.8 Choice of acceleration and braking profiles.	
3.9 Imbalance detection and auto shut down.	
4 System Configuration Accessories, spares and consumables	
4.1 Tube Holders as appropriate	
5 Environmental factors	
5.1 Shall meet IEC-60601-1-2:2001(Or Equivalent BIS) or General Requirements of Safety for	
Electromagnetic Compatibility.	
5.2 The unit shall be capable of operating continuously in ambient temperature of 10 -40deg C	
and relative humidity of 15-90%	

5.3 The unit shall be capable of being stored continuously in ambient temperature of 0 -50deg C	
and relative humidity of 15-90%	
6 Power Supply	
6.1 Power input to be 220-240VAC, 50Hz as appropriate fitted with Indian plug	
7 Standards and Safety	
7.1 The supplier should be preferably ISO certified for quality standards.	
7.2 Product should preferably be FDA/CE or ISI approved	
7.3 Should preferably comply with IEC/TR 61010-3-020 :Safety requirements for electrical	
equipment for measurement, control, and laboratory use - Part 3-020: Conformity verification	
report for IEC 61010-2-020:1992 Particular requirements for laboratory centrifuges"	
7.4 Should preferably comply with IEC 61010-1 Safety requirements for electrical	
equipment for	
measurement, control, and laboratory use - Part 1: General requirements	
8 Documentation	
8.1 User manual in English	
8.2 Service manual in English	
8.3 Certificate of calibration and inspection from factory	
8.4 List of Equipments available for providing calibration and routine maintenance support as per	
manufacturer documentation in service / technical manual	
8.5 List of important spare parts and accessories with their part number and costing	
Log book with instructions for daily, weekly, monthly and quarterly maintenance checklist. The job	
description of the hospital technician and company service engineer should be clearly spelt out.	
Item No.30	
BACTEC System	
Fully automatic system capable of blood, body fluid and myco bacteria testing in the same instrument	
System should be capable enough to culture myco bacterium tubercolosis in the same unit. In case if it is required that is one system is capable enough to culuture blood specimen, sterile body fluid and	
myco bacterium specimen, sterile suseptability and sensitivity	
System should have additional capability for AFB culture from respiratory, non respiratory and blood specimen	
System should work on the reliable colorimetric principle of detection based on CO2 sensor to indicate	
growth of organisms	
System should have specific algorithms for detection of growing micro organisms	
System should have LIS compatibility	
Same bottle should also be capable of detecting bacterial yeast and other fastidious organisms	
System should have FDA clearance for microbial quality control testing of Luecocites	
reduced aspherisis platelets	
Every cell should have its own optics and detection device	
System should have built in calibration check	

System should have touch screen monitor	
System should be capable of exporting data to zip drive for long term storage	
System should have facility of analyzing delayed entry specimens with the routine bottles	
System should have the capability for continuous monitoring of samples for growth of organism in each cell	
System should have continuous agitation to provide facility for optimal growth for the organisms	
System should have special type of culture bottles to neutralise anti biotic effect.	
System should have capability to process samples of adult and paediatrics	
System should support use of plastic bottle as well for safety and ease of disposal	
Item No.31	
QBC Blood parasite detection system	
Should supply complete system with UV Micro Adaptor, Illumination, Fibre Optic cable, Paraviewer, spare lamp, Immersion Oil, Centrifuge malaria atlas.	
Paralens assembly consisting of Focusing lens, 470 nm – 490 nm wavelength, Excitation filter, dichroic beam splitter,	
1.0 N.A, 60x oil immersion lens, 520 nm, wavelength barrier filter and standard royal microscopic threading.	
Illuminator should have LED light source consisting of Rheostat controlled illumination.	
Fibre Optic cable transmits white light illuminator.	
Paraviewer tube holder for direct examination of capillary tube under the microscope.	
Immersion oil (7cc)	
ND = 1.5150 ±0.0002	
ND temp coeff = -0.00031 /+deg C	
Ne = 1.5180 ± 0.0002	
Abbe Ve = 42.6	
Nf-Nc = 0.0120	
cSt = 1250 ± 10%	
Flourescence = low	
To be supplied with monocular microscope	
System should have CE, GS, and UL certifications.	
Enclose Gold standard products with supporting documents like traceability certificate and QC certificates.	
Should provide FDA / CE certifications.	
Item No.32	
Automatic Tissue Embedding Centre	
Should be a Fully Programmable, automatic On/ Off control, unit comprising a maximum of Two consoles, one heated paraffin dispensing unit combined with thermal areas for storage and another Cryo console with cooling plate	
I- Paraffin Dispensing Unit	
1. Capacity of paraffin tank: min 4 litres	
2. Capacity of Thermal Chambers for storage of molds: min 1.8 litres	
3. Temp. range of Paraffin tank: 50- 70 deg C	
4. Temp. range of Thermal Chamber: 50- 70 deg C in steps of 1 Deg C	
5. Temp. range of Hot plates & forceps wells: 50-70 deg C	

6. Connection for Electrically heated forceps	
7. Six heated wells for normal forceps, 3 on either side of the wax dispensing line.	
8. Precisely metered and adjustable gravity feed paraffin dispenser to deliver the right amount of paraffin.	
9. Finger touch plate and foot switch for control of paraffin flow.	
10. Large warm working surface on either side for min 10 cassettes on each side.	
11. Control panel must have 2 line LCD display and easy navigation through the menu with help of simple touch key buttons.	
12. Should have a Magnifying lens adjustable in any position, large cold spot & illumination for specimen orientation.	
II- Cold Console	
1. Capacity of freezing up to 60 blocks at a time.	
2. Temp. range of cold plate: 0- 10deg C, adjustable in steps of 1 deg C.	
3. Compressor to be extra quiet to reduce noise fatigue.	
4. Cryo Console to be controlled via the Dispensing Unit.	
The system should work on 220-240 V, 50 Hz. Should use CFC free gas and must be original manufacturer and must have ISO 9000/01/02 certification.	
Accessories:	
1. Electrical forceps 2 nos.	
2. Magnifying Glass: 1 no.	
3. Foot Switch- 1 no.	
4. Metallic Base molds -100 nos.	
5. Plastic Embedding Rings- 1,000 pcs	
6. Normal Forceps, Toothed – 6 pcs	
Item No.33	
NEONATAL PHOTOTHERAPY UNIT - CFL	
1 Description of Function	
1.1 Phototherapy units are used to treat hyperbilirubinemia, a condition characterized by high bilirubin concentrations in the blood. These units are also called: bilirubin lamps, bilirubin lights, fiberoptic phototherapy blankets, neonatal phototherapy units	
2 Operational Requirements	
2.1 Should be Compact Florescent Lamp (CFL) based Phototherapy unit used for clinical management of neonatal hyperbilirubinemia	
2.2 Lamp unit should be made with plastic lamp module with metallic top cover for efficient heat dissipation to reduce radiant heat on infant.	
2.3 Should occupy very little bedside space, offer convenience in observation and procedures	
2.4 The unit should be mobile with 3 swivel castors of 2" diameter fixed to a T-shaped base to be accommodated beneath trolley/bed with adjustable height.	
3 Technical Specifications	
3.1 Irradiance at 430 - 480 nm- effective to the baby of at least 18 mw/cm/nm at 45cm from the lamp.	
3.2 Lamps: compact florescent lamps	
3.3 Height adjustable:(app+/-5 cm): 138cm (minimum) - 190 cm (maximum)	
3.4 Lamp tiltability :- horizontal to vertical at any angle.	
3.5 Time totaliser : Mechanical / Electronic	

3.6 Therapy duration timer: Resettable - optional	
3.7 Height of the base app: 6-8 cm (at the front)	
3.8 Size of the lamp unit (LxBxH) 47 x 40 x 9 cm +/- 5 cm	
3.9 Coating: Epoxy / Powder coated body for scratch and rust prevention	
4 System Configuration Accessories, spares and consumables	
4.1 System as specified	
4.2 All consumables required for installation and standardization of system to be given free of cost.	
4.3 100 bulbs should be supplied along with each unit	
4.4 Phototherapy eye pads 100 each for preterm and term babies to be provided free.	
5 Environmental factors	
5.1 The unit shall be capable of being stored continuously in ambient temperature of 0 -50 deg C and relative humidity of 15-90%	
5.2 The unit shall be capable of operating continuously in ambient temperature of 10 -40deg C and relative humidity of 15-90%	
6 Power Supply	
6.1 Power input to be 220-240VAC, 50Hz fitted with Indian plug	
6.2 UPS of suitable rating with voltage regulation and spike protection for 60 minutes back up.	
7 Standards, Safety and Training	
7.1 Should be FDA , CE,UL or BIS approved product	
7.2 Shall CERTIFIED to be meeting Electrical Safety requirements as per IEC 60601-2-50 Medical Electrical Equipment part-2-50 Particular requirements for the safety of Infant Phoototherapy Equipments	
7.3 Manufacturer/Supplier should have ISO certification for quality standards.	
7.4 Comprehensive warranty for 2 years and 5 years CMC after warranty and it includes checking flux as per specification every month. CMC would include all electrical, electronic and mechanical items. The CMC should provide at least 100 CFL lamps every year per unit.	
8 Documentations to be provided	
8.1 User/Technical/Maintenance manuals to be supplied in English.	
8.2 Certificate of calibration and inspection.	
8.3 List of Equipments available for providing calibration and routine Preventive Maintenance Support. as per manufacturer documentation in service/technical manual.	
8.4 List of important spare parts and accessories with their part number and costing.	
8.5 Log book with instructions for daily, weekly, monthly and quarterly maintenance checklist.	
8.1 The job description of the hospital technician and company service engineer should be clearly spelt out.	
Item No.34	
Electrophoresis Workstation	
Compact bench top clinical electrophoresis system for serum protein, urine Protein, Hemoglobin, Lipo Protein and Immunofixation-Agarose gel based. Capacity of running 6-8 samples simultaneously on a single gel. Should be equipped with special and dedicated migration and developing unit, . also drying facility should be built in with the developing unit Should use low power consumption. Should come with an integrated display preferably with display of current status. Should be equipped external get scanning system with software for clinical electrophoresis interpretation and reporting. No separate power pack should be required for running the system. Software: User friendly, software with facility for patient demographics, .	

individual patient results, analysis and result print out	
Multiple program facility – upto 30 different programmable facility should be available.	
Agarose gel based kits (gels) compatible with electrophoresis unit should be provided.	
Inhouse training and free installation to be provided.	
System should be FDA and CE marked.	
Item No.35	
Fully Automated Semen Analyser	
System should not require any sample preparation.	
Should measure three WHO recommended parameters.	
Should be extra sensitive for extremely poor specimen and efficacy validation of vasectomy.	
Measuring time should be typically 45 secs.	
Should use the principle of light modulation by motile sperm cells.	
Built in printer should be provided and report should contain:	
Total functional sperm concentration	
Total sperm concentration	
Percentage of motile sperms	
Percentage of normal morphologies	
Sperm motility index	
Should provide objective reports using TFSC and SMI.	
Storage of results facility to be provided.	
RS 232 interface required.	
In-house training and free installation to be provided.	
System should be FDA and CE marked. Certificates should be enclosed	

GENERAL TECHNICAL SPECIFICATIONS

GENERAL POINTS:

1. Warranty:

- a) Comprehensive Warranty as stated in GCC clause No. 15 (in Section – IV) for complete equipment (including X ray tubes, HT Cable, Probes, Electrodes, Detectors, Batteries for UPS, other vacuumatic parts wherever applicable) and Turnkey Work from the date of satisfactory installation, commissioning, trial run & handing over of equipment to Hospital/ Dispensaries/ Institute/ Medical College.
- b) 98% up time Warranty of complete equipment with extension of Warranty period by double the downtime period on 24 (hrs) X 7 (days) X 365 (days) basis.
- c) All software updates should be provided free of cost during Warranty period.

2. After Sales Service:

- a) After sales service centre should be available at the city of Hospital/Institution/Medical College on 24 (hrs) X 7 (days) X 365 (days) basis. Complaints should be attended properly, maximum within 8 hrs. The service should be provided directly by Tenderer/Indian Agent. Undertaking by the Principals that the spares for the equipment shall be available for at least 10 years from the date of supply.
- b) The service provider should have the necessary equipments recommended by the manufacturer to carry out preventive maintenance test as per guidelines provided in the service/maintenance manual.

3. Training:

On Site training to Doctors/ Technicians/ staff is to be provided by Principal/ Indian Agents (if they have the requisite know-how) for operation and maintenance of the equipment to the satisfaction of the consignee.

4. Annual Comprehensive Maintenance Contract (CMC) of subject equipment with Turnkey:

- a) **The cost of Annual Comprehensive Maintenance Contract (CMC)** which includes preventive maintenance including testing & calibration as per technical/ service /operational manual of the manufacturer, labour and spares, after satisfactory completion of Warranty period **to be quoted for next 5 years on yearly basis** for complete equipment (including X ray tubes, HT Cable, Probes, Electrodes, Detectors, Batteries for UPS, other vacuumatic parts wherever applicable) and Turnkey (if any). The supplier shall visit each consignee site as recommended in the manufacturer's technical/ service /operational manual, but at least once in six months during the CMC period
- b) The cost of CMC to be quoted along with taxes applicable on the date of Tender Opening. The taxes to be paid extra, to be specifically stated. In the absence of any such stipulation the price will be taken inclusive of such taxes and no claim for the same will be entertained later.
- c) Cost of CMC will be added for Ranking/Evaluation purpose.
- d) The payment of CMC will be made on six monthly basis after satisfactory completion of said period, duly certified by end user on receipt of bank guarantee for 2.5 % of the cost of the equipment as per Section XV valid till 2 months after expiry of entire CMC period.
- e) There will be 98% uptime warranty during CMC period on 24 (hrs) X 7 (days) X 365 (days) basis, with penalty, to extend CMC period by double the downtime period.
- f) During CMC period, the supplier is required to visit at each consignee's site at least once in 6 months commencing from the date of the successful completion of warranty period for preventive maintenance of the goods.

- g) All software updates should be provided free of cost during CMC.
- h) Failure of the above [4. e) to 4. g)] by the supplier, may lead to the forfeiture of the Bank Guarantee for Annual CMC.
- i) The payment of CMC will be made as stipulated in GCC Clause 21.

5. **Turnkey:**

Turnkey is indicated in the technical specification of the respective items, wherever required. The Tenderer shall examine the existing site where the equipment is to be installed, in consultation with HOD of Hospital/Institution/Medical College concerned. Turnkey details of each Hospital/Institution/Medical College are given at the end of Technical Specification. The Tenderers to quote prices indicating break-up of prices of the Machine and Turnkey Job of each Hospital/Institution/Medical College. **The Turnkey costs may be quoted in Indian Rupee will be added for Ranking Purpose.**

The taxes to be paid extra, to be specifically stated. In the absence of any such stipulation the price will be taken inclusive of such duties and taxes and no claim for the same will be entertained later.

The Turnkey Work should completely comply with AERB requirement, if any.

Section – VIII

Quality Control Requirements

(Proforma for equipment and quality control employed by the manufacturer(s))

Tender Reference No.

Date of opening

Time

Name and address of the Tenderer:

Note: All the following details shall relate to the manufacturer(s) for the goods quoted for.

- 01 Name of the manufacturer
 - a. full postal address
 - b. full address of the premises
 - c. Email ID
 - d. telephone number
 - e. fax number
- 02 Plant and machinery details
- 03 Manufacturing process details
- 04 Monthly (single shift) production capacity of goods quoted for
 - a. normal
 - b. maximum
- 05 Total annual turn-over (value in Rupees)
- 06 Quality control arrangement details
 - a. for incoming materials and bought-out components
 - b. for process control
 - c. for final product evaluation
- 07 Test certificate held
 - a. type test
 - b. BIS/ISO certification
 - c. any other
- 08 Details of staff
 - a. technical
 - b. skilled
 - c. unskilled

Signature and seal of the Tenderer

Section – IX

Qualification Criteria

01. The Tenderer must be a Manufacturer or its authorized Agent.
02. (a) The Manufacturer should have supplied and installed in last **Five** years from the date of Tender Opening, atleast 100% of the quoted quantity of the similar equipment meeting major specification parameters which is functioning satisfactorily. The foreign Manufacturer satisfying the above criteria should also have supplied and installed in last **Five** years from the date of Tender Opening, at least 50% (or one No. where the schedule of requirement is one no.) of quoted quantity of similar model which is functioning satisfactorily any where outside the country of manufacture.
02. (b) The Tenderers quoting as authorized representative of the manufacturer meeting the above criteria 02 (a) should have supplied and installed in last **Five** years from the date of Tender Opening, atleast 50% (or one No. where the schedule of requirement is one no.) of the quoted quantity of similar equipment which is functioning satisfactorily, any where in India of the same manufacturer.

Note:

1. In support of 2 (a) & 2 (b), the Tenderer shall furnish Performance statement in the enclosed Proforma 'A'.

The manufacturer as well as the Tenderer/ Indian Agent shall furnish Satisfactory Performance Certificate in respect of above, duly translated in English and duly notarized, alongwith the tender. The performance certificate should be in accordance with the requirement of clause 2 (a) / 2 (b) as stated above.

2. The Tenderer shall furnish a brief write-up, packed with adequate data explaining and establishing his available capacity/capability (both technical and financial) to perform the Contract (if awarded) within the stipulated time period, after meeting all its current/present commitments. The Tenderer shall also furnish details of Equipment and Quality Control in the enclosed Section VIII.
3. Notwithstanding anything stated above, the Purchaser reserves the right to assess the Tenderer's capability and capacity to perform the contract satisfactorily before deciding on award of Contract, should circumstances warrant such an assessment in the overall interest of the Purchaser.
4. The Purchaser reserves the right to ask for a free demonstration of the quoted equipment at a pre determined place acceptable to the purchaser for technical acceptability as per the tender specifications, before the opening of the Price Tender.

Section – X TENDER FORM

Date _____

**To,
Head (P & CD)
HLL Lifecare Limited
Procurement and Consultancy Division
B-14A, Sector -62, Noida -201307, Uttar Pradesh**

Ref. Your TE document No. _____ dated _____

We, the undersigned have examined the above mentioned TE document, including amendment/corrigendum No. _____, dated _____ (if any), the receipt of which is hereby confirmed. We now offer to supply and deliver _____ (Description of goods and services) in conformity with your above referred document.

If our tender is accepted, we undertake to supply the goods and perform the services as mentioned above, in accordance with the delivery schedule specified in the List of Requirements.

We further confirm that, if our tender is accepted, we shall provide you with a performance security of required amount in an acceptable form in terms of GCC clause 5, read with modification, if any, in Section - V – “Special Conditions of Contract”, for due performance of the contract.

We agree to keep our tender valid for acceptance as required in the GIT clause 20, read with modification, if any in Section - III – “Special Instructions to Tenderers” or for subsequently extended period, if any, agreed to by us. We also accordingly confirm to abide by this tender up to the aforesaid period and this tender may be accepted any time before the expiry of the aforesaid period. We further confirm that, until a formal contract is executed, this tender read with your written acceptance thereof within the aforesaid period shall constitute a binding contract between us.

We further understand that you are not bound to accept the lowest or any tender you may receive against your above-referred tender enquiry.

We confirm that we do not stand deregistered/banned/blacklisted by any Govt. Authorities.

We confirm that we fully agree to the terms and conditions specified in above mentioned TE document, including amendment/ corrigendum if any

**SECTION – XII
QUESTIONNAIRE****Fill up the Section XX – Check List for Tenderers and enclose with the Tender**

1. The tenderer should furnish specific answers (alongwith mention of relevant page nos. of tender) to all the questions/issues mentioned in the Checklist. In case a question/issue does not apply to a tenderer, the same should be answered with the remark “not applicable”
2. Wherever necessary and applicable, the tenderer shall enclose certified copy as documentary proof/ evidence to substantiate the corresponding statement.
3. In case a tenderer furnishes a wrong or evasive answer against any of the question/issues mentioned in the Checklist, its tender will be liable to be ignored.

SECTION – XIV
MANUFACTURER’S AUTHORISATION FORM

To,

Head (P & CD)

HLL Lifecare Limited
Procurement and Consultancy Division
B-14A, Sector -62, Noida -201307, Uttar Pradesh

Dear Sir,

Ref. Your TE document No _____, dated _____

We, _____ who are proven and reputable manufacturers of _____ (*name and description of the goods offered in the tender*) having factories at _____, hereby authorise Messrs _____ (*name and address of the agent*) to submit a tender, process the same further and enter into a contract with you against your requirement as contained in the above referred TE documents for the above goods manufactured by us.

We further confirm that no supplier or firm or individual other than Messrs. _____ (*name and address of the above agent*) is authorised to submit a tender, process the same further and enter into a contract with you against your requirement as contained in the above referred TE documents for the above goods manufactured by us.

We also hereby extend our full warranty, CMC as applicable as per clause 15 of the General Conditions of Contract, read with modification, if any, in the Special Conditions of Contract for the goods and services offered for supply by the above firm against this TE document.

We also confirm that the price quoted by our agent shall not exceed than that which we would have quoted directly.

Yours faithfully,

[Signature with date, name and designation]
for and on behalf of Messrs _____

[Name & address of the manufacturers]

Note: 1. This letter of authorisation should be on the letterhead of the manufacturing firm and should be signed by a person competent and having the power of attorney to legally bind the manufacturer.
2. Original letter may be sent.

SECTION – XV

BANK GUARANTEE FORM FOR PERFORMANCE SECURITY/ CMC SECURITY

To
Head of Hospital/Institute/Medical College of ESIC

WHEREAS _____ (Name and address of the supplier) (Hereinafter called “the supplier”) has undertaken, in pursuance of contract no _____ dated _____ to supply (description of goods and services) (herein after called “the contract”).

AND WHEREAS it has been stipulated by you in the said contract that the supplier shall furnish you with a bank guarantee by a scheduled commercial bank recognised by you for the sum specified therein as security for compliance with its obligations in accordance with the contract;
AND WHEREAS we have agreed to give the supplier such a bank guarantee;

NOW THEREFORE we hereby affirm that we are guarantors and responsible to you, on behalf of the supplier, up to a total of. _____ (Amount of the guarantee in words and figures), and we undertake to pay you, upon your first written demand declaring the supplier to be in default under the contract and without cavil or argument, any sum or sums within the limits of (amount of guarantee) as aforesaid, without your needing to prove or to show grounds or reasons for your demand or the sum specified therein.

We hereby waive the necessity of your demanding the said debt from the supplier before presenting us with the demand.

We further agree that no change or addition to or other modification of the terms of the contract to be performed there under or of any of the contract documents which may be made between you and the supplier shall in any way release us from any liability under this guarantee and we hereby waive notice of any such change, addition or modification.

This guarantee shall remain valid till 2 (two) months beyond the warranty period, i.e up to ----- (indicate date)
