

List of Procedures

<u>Department</u>	<u>Procedure required for empanelled</u>	<u>Reason</u>	<u>Name of empanelled hospitals</u>
<u>ENT</u>	<ol style="list-style-type: none"> 1. Stapedectomy 2. Dignostic Nasal Endoscopy 3. Theraputic Nasal Endoscopy <ol style="list-style-type: none"> a. Foreign Body Removal b. Endoscopic Biopsy c. Endoscopic Cauterization of Bleeding point 4. Functional Endoscopic Sinus Surgery 5. Endoscopic Dacryocystorhinostomy 6. Flexible Nasopharyngoscopy and biopsy 7. Videolaryngoscopy 8. Videostroboscopy 9. Direct Laryngoscopy- Rigid <ol style="list-style-type: none"> a. Diagnostic b. Foreign Body Removal c. For Biopsy d. For Removal of Polyp/Vocal Cord Nodule/Oedema 10. Microlarygeal Surgeries 11. Oesiphagoscopy <ol style="list-style-type: none"> a. Diagnostic b. Theraputic <ol style="list-style-type: none"> 1. Biopsy 2. Removal of Foreign Body 		
<u>Gynaec</u>	<ol style="list-style-type: none"> 1. Endoscopic and laparoscopic Surgery 2. Amniocentesis or chorion villous sampling 3. Intrauterine Insemination (IVF) 4. High risk Pregnancy 5. Endocrinology consultation 6. Delivery 		High risk pregnancy cases

<u>ORTHO</u>	Open reduction and internal fixation Arthroscopic Procedure		
<u>ANESTHESIOLOGY</u>	Critical care support		
<u>PAEDIATRICS</u>	NICU		
<u>CHEST</u>	VATS (Video Assisted Thoracoscopy) Tube thoracotomy with pleurodesis Decortication Bullectomy/Lobectomy/Pneumonectomy Bronchial artery embolisation		
<u>SKIN</u>	Photochemotherapy/Phototherapy Iontophoresis Plastic Surgery Radio frequency surgery		
<u>MEDICINE</u>	Upper G1+Lower G1 endoscopy Gastroscopy Endoscopic Biopsy Band Ligation of esophageal varices Diagnostic endoscopy Liver biopsy Haemodialysis for seronegative case Haemodialysis for seropositive case AV fistula creation for HD Perm cath insertion Jugular catheterization for HD Double lumen femoral catheterization for HD USG guided kidney biopsy Plasma exchange Kidney Transplantation(related/un related) Donor nephrectomy (open) Donor nephrectomy (laproscopic)		

	Peritoneal Dialysis CAPD cath insertion ASD closure VSD with graft CABG CABG with IABP CABG with Valve replacement DVR MVR/AVR Marrow biopsy		
<u>NEURO</u>	Neuro Surgery		
<u>SURGERY</u>	Refrosternal Thyroid Surgery High risk and Large MNG Laproscopic		
<u>EYE</u>	<ol style="list-style-type: none"> 1. Keratoplasty – PKP, DSAEK, ALTK 2. Retinal Laser Procedure for Diabetic and other retinal diseases 3. Retinal Detachment surgery with Scleral Buckling 4. Pars Plana Vitrectomy- PPV with IOL removal 5. Silicone oil removal 6. Intraavitreal injections- Lucentis, Avastin, Steroid, Antibiotic 7. Photo Dynamic Therapy 8. Orbitotomy 9. Cyclophotocoagulation and cyclocryotherapy 10. Macular hole surgery 11. Ultra violet radiation for corneal cross linking for Keratoconus (C3R) 12. OCT 13. Fundus Fluorescein Angiography
