- ix. Wiring work from UPS power output line to nodes, power socket and such other related works must also be done at the time of installation.**
- x. **PENALTY FOR DELAYED DELIVERY:** In the event of delayed delivery i.e. delivery after the expiry_of the delivery period as specified in the scope of work, the successful bidder shall be liable to pay a penalty of **Rs.2000/- per week** per location subject to a maximum of 10% (ten percent) of the value of the undelivered orders.

8. PAYMENT TERMS

Payment shall be done by ESIC to the successful bidder, after the following documents/conditions are submitted / fulfilled by them at the end user locations.

(SIGNATURE OF THE BIDDER
WITH OFFICIAL SEAL)

- a) Certificate of successful installation of new Online UPS 3KVA (Inbuilt Isolation Transformer) with batteries including wiring work duly signed by the end user locations.
- b) Certificate of removal of old UPS, Inverter, batteries and related waste materials from the locations.
- c) Both new & buy back UPS with Battery serial numbers to be mentioned on installation report and on invoice copy duly certified by the officer-in-charge at the End user location.

9. COMPREHENSIVE WARRANTY AND COMPREHENSIVE ANNUAL MAINTENANCE

CONTRACT (CAMC):

Comprehensive Warranty

- (i) The bidder shall warrant that the UPS and batteries to be supplied shall be brand new and free from all defects and faults in materials used, workmanship and shall be of the highest grade and consistent with the established and generally accepted standards for materials of the type ordered and shall perform in full conformity with the specifications.
- (ii) **Warranty period shall be minimum 3 years** starting from the date of installation, testing and commissioning of the UPS with batteries in the locations.
- (iii) During the warranty period, the successful bidder shall ensure quarterly visits by their authorized/competent personnel to all field /user locations for preventive/periodical maintenance (PM) of the Online UPS 3KVA (Inbuilt Isolation Transformer) along with batteries. During PM visit, the essential maintenance activities (as per OEM manual) required for continuous running of the UPS, Inverter and batteries needs to be performed.
- (iv) Replacement under warranty clause shall be made by the bidder, free of all charges at site like freight, insurance and other incidental charges during the warranty period due to normal and proper use and maintenance thereof, or if the item is defective in design, material or workmanship or fails to conform to the specifications as specified.
- (v) If any call/report is logged to the bidder due to failure of the UPS and batteries, the bidder should supply/change the defective UPS, its batteries or its parts within two working days. For replacing these UPS and batteries the cost of transport, insurance and installation has to be borne by the successful bidder only. If there is any delay beyond two working days, ESIC shall rectify the failure at the risk and cost of the bidder. The cost so incurred by ESIC shall be recovered from the bidder.
- (vi) The successful bidder shall provide the contact details of their support team (Landline/Mobile/Email/Etc) to all ESIC End users. The details shall include higher

(SIGNATURE OF THE BIDDER
WITH OFFICIAL SEAL)

levels for escalating calls. The bidder shall register all "calls" raised by end users under a ticket / complaint no. Periodical / monthly reports of such calls shall be submitted by the bidder to ESIC. IT- Cell at ESIC SRO Coimbatore shall co-ordinate with the bidder to resolve all calls smoothly and in a timely manner.

- (vii) All the items including the accessories supplied as per the technical specification in should carry comprehensive warranty for the period specified. During this period, the successful tenderer shall replace all defective parts and attend to all repairs/break downs and undertake stipulated number of preventive maintenance visits to every user installation site. The cost of all spare parts replaced has to be borne by the successful tenderer during the period of comprehensive warranty.
- (viii) On expiration of the comprehensive warranty period, the successful tenderer shall provide after-sales support for an additional period prescribed, under an extended contract known as Comprehensive Annual Maintenance Contract (CAMC).
- (ix) The prospective tenderer, who are resellers, may submit an undertaking from the Original Equipment Manufacturers (OEM) that they are willing to provide spare parts for the period of warranty as mentioned and also during the CAMC period, if awarded. The OEM shall also assure continuity of service to their product, in the event of change in dealership or the tenderers – their existing dealers - **couldn't provide** service during the warranty / AMC period.
- (x) During every visit, a copy of the service report/break down call report, duly signed by the custodian of the instrument /head of the institution and stamped shall be forwarded by email/fax/post to the office of IT-Cell, ESIC Sub-Regional Office Coimbatore within 10 days.
- (xi) Upon receipt of notice for repair/breakdown from the ESIC or field office, the tenderer should arrange to attend the complaint properly, within the time mentioned and to repair or replace the defective goods or parts thereof, without additional cost to ESIC. In case, the repair/fault duration is likely to exceed 72 hours, the successful tenderer shall arrange a standby items of the same make and model within next 48 hours (total down time should not exceed 5 days) as a stop-gap arrangement till the repair/fault is rectified and the stand by instrument shall perform in the same manner as regards a new instrument.
- (xii) Failure to perform preventive maintenance visit or to attend the repairs in time or to replace the defective equipments or to provide stand by equipment if the fault/down time exceeds the stipulated period, shall lead to forfeiture of the performance security. In case of such failure to rectify the defect(s) within the period specified, the ESIC may proceed to take such remedial action as may be deemed **necessary, at the tenderer's risk and cost and without prejudice to any other** rights.

(SIGNATURE OF THE BIDDER
WITH OFFICIAL SEAL)

- (xiii) A warranty certificate duly signed and with proper stamp of the successful tenderer shall be submitted to the ESIC along with the Installation Certificate. A copy of the original warranty papers has to be given to the field office concerned also.
- (xiv) The offered warranty includes:
 1. Cost of Visits to the user institutions at frequencies prescribed as part of preventive maintenance.
 2. Cost of all parts, spares, materials, tools, etc required to keep the items in working condition.
 3. Testing & calibration as per technical/service/operation manual of the manufacturer.

Comprehensive Annual Maintenance Contract (CAMC)

- (i) ESIC at its discretion may enter into CAMC, which is a yearly all-inclusive maintenance contract. The decision to enter into CAMC will be based on the condition of the items, market situations and other factors.
- (ii) The CAMC is otherwise an extended warranty. All the terms and conditions agreed by the successful tenderer for executing the comprehensive warranty of the instrument shall be extended during the period of CAMC, with the only difference that after expiry of warranty period, the tenderer or his agency is eligible for CAMC charges.
- (iii) During CAMC, the cost of visits, labour, spares, etc will be borne by the tenderer as during Comprehensive Warranty.
- (iv) The unit rate of CAMC quoted in the Financial Bid shall be inclusive of all charges, taxes, duties, etc. as applicable. Such rates are binding on the successful tenders for at-least 2 years after the expiration of the warranty period.
- (v) Failure/refusal on the part of the successful tenderer to enter into CAMC with the ESIC, at the end of the Comprehensive Warranty Period, shall lead to forfeiture of performance security and may also result in the blacklisting/debarring of the tenderer.
- (vi) The payment of the agreed CAMC charges will be made as per frequency of visits (Quarterly) after satisfactory completion of the activities and on receipt of successful completion of service report/ break down report from the head of all user institutions.
- (vii) The successful tenderer shall take over the replaced parts/goods after providing their replacements and no claim, whatsoever shall lie on the ESIC for such replaced parts/goods thereafter.

10. Signing of Tender

The tender will be liable to be rejected in case complete information is not given therein. Individuals signing tender or other documents connected with the contract must specify as to whether he is signing as:

(SIGNATURE OF THE BIDDER
WITH OFFICIAL SEAL)

- i. 'Sole Proprietor' of the firm or his Attorney.

TECHNICAL SPECIFICATION FOR 3 KVA ONLINE UPS

Rating in KVA	:	3.0
Technology	:	IGBT – PWM
Input Power	:	Single Phase 160 V – 260 V Sine Wave, 50 Hz
Output Power	:	Single Phase 230 V \pm 1 % Sine Wave, 50 Hz
UPS Make	:	Amaron, Luminous, Exide
Minimum Backup Time	:	120 Minutes
Minimum VAH	:	9600
Voltage Regulation from no load to full load	:	1
Inbuilt Isolation Transformer	:	Yes
20 % Overload limit for minimum 10 minutes:	:	Yes
50% Overload limit for minimum 1 minute	:	Yes
Total Harmonic Distortion (THD)	:	3
Overall Efficiency	:	90
Type of Battery	:	SMF-VRLA conforming to JISC:8702(Pt.I,II&III)
Minimum thickness of M.S. Sheet	}	1.2
Enclosure duly painted		
Degree of Protection	:	IP21
Protection of over voltage, short circuit And Over load at UPS output terminal	}	Yes
Protection for under voltage at battery terminal at 10.5 V per 12 V battery		
Maximum overshoot and undershoot of output rated voltage	}	4
Indicator from main presence, Battery charging and discharging Output overload, low battery voltage	}	Yes
Digital metering in UPS for AC input Voltage, output AC voltage, Current, Frequency, Battery Voltage and current		
Movable trolley for Batteries	:	Yes
Dry Heat test: in accordance with IS: 9000(Part 3 / sec. 5) 1977 (Reaffirmed 2007) at 55 Degree C for 16 Hours	}	Yes
Damp Heat: in accordance with IS: 9000(Part 5 / sec.2) 1981 at Temperature of 40 Degree C, Two Cycles of (12+12) hours each 2007		
Cold Test: in accordance with IS: 9000 (Part 2 / sec.4) 1977 (Reaffirmed 2007) At – 10 degree C for 4 hours	}	Yes
